FOREWORD

This publication is issued as a supplement to the two-volume NIS Gazetteer, Poland, Volume I, January 1955, and Volume II, February 1955. Its purpose is to provide Polish names for places and features that are listed under their German names and with the area number for Germany (260) in the NIS gazetteer of Poland.

The names in this supplement are approved by the Board on Geographic Names as provisional standard names for use with disclaimers to the effect that names or their spellings do not reflect recognition of the political status of an area by the United States Government. They replace those in the 1955 gazetteer for the area between the pre-World War II western boundary and the present *de facto* western boundary of Poland (the Oder–Neisse Line).

This supplement contains about 3,300 entries, including unapproved variant names, the latter cross-referenced to the provisional standard names. *Users of the gazetteer should always refer to main entries for approved names.*

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name--Provisional standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Jezioro Borowno is listed as Borowno, Jezioro. Diacritical marks and special letters are illustrated in the following words: góra, kanał, kępa, Żarowa. The same marks are to be used whether the names are written in capitals or lower-case letters.

Designation--The second column contains designations or abbreviations of designations, as follows:

BANK	bank	POPL	populated place
BAY	bay	RDGE	ridge
CHAN	channel	REGN	region
CNAL	canal	ROAD	roadstead
FRST	forest	RSTA	railroad station
HBR	harbor, ship basin	RSVR	reservoir
ISL	island	SECI	section of an island
LAGN	lagoon	SECL	section of a lake
LAKE	lake	SECP	section of a populated place
MRSH	marsh		
MT	mountain	SECS	section of a stream
MTS	mountains, mountain range	SHOL	shoal
		SPIT	spit
PASS	pass	STRM	stream
PEN	peninsula		

Latitude and longitude--Coordinates, in the third and fourth columns, are for finding purposes only. Large-scale maps or charts should be referred to for exact location.

Administrative division--The number in the fifth column, 310, is the area number assigned to Poland.

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100100001-6

Locational reference--The number in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *Polska Rzeczpospolita Ludowa: Mapa Administracyjna,* Państwowe Przedsiębiorstwo, Wydawnictw Kartograficznych, Warsaw, 1957; scale 1:1,000,000.

02 *Mapa Polski,* Centralny Urząd Geodezji i Kartografii, Warsaw, 1956; scale 1:500,000.

03 *Mapa Krajoznawcza Polski,* Centralny Urząd Geodezji i Kartografii, Warsaw, 1955; scale 1:550,000.

The code 00 is used for cross-references and for the standard names to be found only on references other than those listed above.
