November 1950

This Preliminary Gazetteer for Albania is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Albania.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

This gazetteer contains about 5,250 entries for places and features in Albania. The scale of map coverage is about 1:250,000. Because of the limitations of Albanian place-name sources, non-Albanian maps and other materials (notably *A Gazetteer of Albania*, by the Permanent Committee on Geographical Names for British Official Use, 1946) were relied upon in standardizing the names.

Glossary of generic terms

The following glossary contains generic terms in the forms occurring in the standard names listed in the gazetteer. Each of the meanings given applies in the case of one or more of the standard names. Some of the generic terms are listed in two forms. This is because they occur in both the indefinite and definite form in the standard names: for example, *mal*, "a mountain," and *mali*, "the mountain."

abacija	abbey
bjeshk'	wooded upland
fan	stream
gji	bay
gjol	lake, lagoon
gryk'	ravine
gur	mountain
kënet'	lagoon, lake
kep, kep'	cape, point
kodër	mountain
lak	dale
liqen	lake
lum	river
maj', maja	mountain, summit
mal, mali	mountain, ridge, slope
pellg	bight
përroj	stream
prefektura	prefecture (1st-order administrative division)
prron'	stream
qaf'	pass
rëre	cove
skjep	cape
suk	mountain
zall	stream

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information regarding places and features listed in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Standard names and cross-references from variant names appear in the first column. In some cases, two or more names are approved for a feature, and each is stated, with bracketed identification. Names that include both specific and generic elements are alphabetized by specific part; thus Maj' e Alojsit is listed as Alojsit, Maj' e.

Designation.—Designations in the second column are sometimes abbreviated and represent groups of features, as follows:

ABBY	abbey
ADMD	administrative division
ANCH	anchorage
BGHT	bight
CH	church
GRGE	gorge, ravine
HILL	hill(s), hilly area
ISL	island, islet
LAGN	lagoon
LDNG	landing place
MRSH	marsh
MT	mountain, summit
MTD	mountain district
MTS	mountains, mountain range
PASS	mountain pass
PEN	peninsula
POPL	populated place
PT	point
PTRE	pasture
RDGE	ridge
SHRN	shrine
SITE	ancient site, ruins
SLPE	slope
STAT	state, nation
STR	strait
STRM	stream
UPLD	upland
VAL	valley
