CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

August 1964

This Gazetteer is issued as a standard component of the National Intelligence Survey for North Vietnam and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 22,250 entries for places and features in the part of the Republic of Vietnam north of the "Demarcation Line" at approximately 17° north latitude. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds approximately to that on maps at the scale of 1:250,000 or larger. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic or other elements preceding the specific term (except names of populated places) are transposed and alphabetized by the specific part; thus Nam Han is listed as Han, Nam.

All diacritical marks are omitted from approved geographic names of Vietnam, except from French name elements, in which the standard French diacritical marks are retained on both capital and lowercase letters; these are the apostrophe (’), the acute (´), the grave (`), and the circumflex (ˆ) accents, the cedilla (¸), and the dieresis (¨). In writing Vietnamese names, all separate and hyphenated words, except French noninitial articles and prepositions, are capitalized.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADMD	administrative division	
	administrative region:	autonomous region (group of *tinh* with special administrative status)
	first-order administrative division:	*tinh*, municipality, special zone
	second-order administrative division:	*huyen, chau, phu*
ANCH	anchorage	
BAY	bay	
CAVE	cave(s)	
CHNM	marine channel (channel between coastal islands, reefs, or shoals or between an offshore feature and the mainland)	
CHNS	stream channel (separately named lesser channel around an island or shoal in a stream; e.g., between deltaic islands)

CNLN	navigation canal
COVE	cove
DCKB	docking basin
ENTR	entrance (opening from the sea into a lagoon or bay)
FRST	forest
FTQ	former military post (indicated as *chef-lieux* on some maps but not in fact populated places)
GRGE	gorge (relatively narrow, steep-sided part of a streamcourse)
GULF	gulf
HBR	harbor (body of water providing shelter for ships)
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)
HLL	hill (landform of moderate relief and small summit area)
HLLS	hills
ISL	island
ISLS	islands
LK	lake
MT	mountain (landform of conspicuous relief and small summit area)
MTS	mountains, mountain range
PASS	pass (way over, through, or between mountains or other high land)
PCLI	independent political entity (republic)
PEN	peninsula
PK	peak (separately named summit on a larger elevation)
PND	pond
PPL	populated place (city, town, village, settlement, dispersed rural community)
PPLQ	abandoned village
PPLX	section of populated place
PT	point (relatively minor projection of land into a waterbody, or its extremity)
RDGE	ridge (elongated, relatively narrow and even-crested relief feature)
RF	reef (offshore consolidated-rock hazard to navigation with a least depth of ten fathoms or less)
RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
RKW	rock in water (may be above or below the water surface)
RPDS	rapids
RSTN	railroad station (some may be on abandoned railroads or on railroads under reconstruction)
STM	stream (includes perennial watercourses of all sizes)
STMD	distributary; section of distributary; deltaic watercourse (watercourse connecting distributaries or other deltaic streams)
STMI	intermittent stream (no part indicated as perennial)
STMM	stream mouth
STMX	section of stream
WTCQ	abandoned watercourse

Latitude and longitude.—The third and fourth columns indicate geographic coordinates with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative unit (*tinh*, municipality, or special zone) in which the place or feature is located, as listed below:

The general number (46500) is used for international features and for features in two or more first-order administrative units.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *Indochina and Thailand 1:250,000,* Series L509, Army Map Service, Washington, D.C., 1954–62.

02 *Indochina 1:100,000,* Series L605, Army Map Service, Washington, D.C., 1954–61 (reprint dates).

03 Viêt-Nam, Sở Địa-Chính (Cadastral Service), Hanoi, 1958.

04 French hydrographic charts, Service de la Marine, Paris, various scales and dates.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

* See footnote on page v.

Additional Name Lists

The following publications contain names not included in this gazetteer and may be helpful as finding lists, though the additional names in them are not necessarily those that would be approved by the Board as standard names:

1. *Danh Sách Các Lang Bắc Việt Nam*, (Name List of All places in Northern Vietnam), Sở Địa Chính và Địa Hình Bắc Việt) Cadastral and Topographic Services, Vietnam), Hanoi, 1953; about 8,000 names.
2. *Gazetteer of Indo-China,* Director of Survey (India), 1945; nearly 100,000 names.
3. *French Indochina and South China Sea,* Publication No. 892, Hydrographic Office, Department of the Navy, Washington, 1944; about 26,000 names.
4. *Indochina Place Name List,* National Security Agency, Washington, 1957; 2 parts in 6 volumes; derived from AMS 1:100,000 scale maps.
5. *Gazetteer to AMS 1:250,000 Maps of Indochina (Series L509)*, Army Map Service, Washington, 1958; about 48,000 names.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

*After the listing for this gazetteer had been prepared and sent to the Printer, information was received to the effect that the first-order administrative units of Hai Ninh and Hong Quang Special Zone have been combined to form a new unit named Tinh Quang Ninh. The two former divisions have been deleted from the listing and the new one has been inserted as:

QUANG NINH, TINH	ADMD	21°15'N	107°20'E	46500	00

However, the area numbers of features within the two former units have not been revised and are still indicated in the listing as 46576 and 46584.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
