CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

July 1963

This Gazetteer is issued as a standard component of the National Intelligence Survey for Brazil and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 62,500 entries for places and features in Brazil. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The name coverage corresponds approximately to that on maps at the scale of 1:1,000,000, with coverage at larger scales in selected eastern and southeastern coastal and interior areas.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Ilha Grande is listed as Grande, Ilha.

Arabic numerals in names are generally spelled out in Portuguese and are alphabetized accordingly; e.g., Dois de Julho. Cross-references from the numerical forms of these names to the spelled-out forms will be found at the end of the alphabetical listing. Arabic numerals representing units of distance and Roman numerals are not spelled out; e.g., Quilômetro 8, Pedro II.

The diacritical marks used in approved names of Brazil are the acute accent (´), the grave accent (`), the circumflex (ˆ), the tilde (˜), and the cedilla (¸); these marks are to be used whether the names are written in capital or lowercase letters.

In writing Brazilian names in capital and lowercase letters, the initial letter of each word except noninitial articles, prepositions, and conjunctions should be capitalized. The apostrophe in a contraction of the Portuguese word *de* before a word beginning with a vowel is written without space either preceding or following; e.g., Ôlho d'Água; Barra d'Areia.

Designation. — The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADMD	administrative division (*estado*, state; *território*, territory; *distrito federal*, federal district)
ATOL	atoll (ring of coral islands enclosing a protected body of water)
BAY	bay
BCH	beach (sandy section of a shore); barrier beach (deposit of sand between the sea and a lagoon or wetland)
BGHT	bight (open body of water forming a slight recession in a coastline)
BND	stream bend
BNKM	marine bank (offshore area of relatively shallow water, but of sufficient depth for safe navigation)

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

CAPE	cape (seaward end of a projection of land of such position and size as to cause offshore coastwise shipping to change course)
CHNM	marine channel (channel between coastal islands, reefs, or shoals or between an offshore feature and the mainland)
CHNS	stream channel (separately named lesser channel of a stream; includes connecting channels)
CNLN	navigation canal
COVE	cove
CRKT	tidal creek (watercourse tidal in a major part of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland)
ENTR	entrance (opening from the sea into a lagoon, bay, or harbor)
ESTY	estuary (drowned stream mouth)
FLLS	waterfall(s), cascade(s)
FLTT	tidal flats (coastal area alternately submerged and exposed by tide)
GRGE	gorge (relatively narrow, steep-sided part of a streamcourse)
HDLD	headland (conspicuously high piece of land jutting out into or fronting the sea)
HLL	hill (landform of moderate relief and small summit area)
HLLS	hills, hill range
HLND	highlands (landform region characterized by mountains, hills, plateaus, and other uplands)
INLT	inlet (small elongated indentation in a coast)
ISL	island
ISLS	islands
LGN	lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or other depositional feature)
LK	lake (includes flood plain waterbodies connected to streams by short, wide channels)
LKI	intermittent lake
LKS	lakes
LLND	lowland
MESA	mesa (flat or nearly flat landform less extensive than a plateau and separated from lower surrounding land by abrupt slopes)
MRSH	marsh (wetland characterized by grass or bush vegetation and few or no trees)
MT	mountain (landform of conspicuous relief and small summit area)
MTS	mountains, mountain range
PCLI	independent political entity (republic)
PK	peak (separately named summit on a larger elevation)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
PLN	plain (landform of low elevation and inconspicuous relief)
PPL	populated place (city, town, village, settlement; includes named places of presumed permanent or temporary habitation)
PPLX	section of populated place
PT	point (relatively minor projection of land into a waterbody, or its extremity)
RCH	reach (straight stretch of a stream)
RDGE	ridge
RF	reef(s) (offshore hazard to navigation, usually characterized by submerged rocks)
RGN	region (area recognized as an entity by reason of the unity of its history, people, landscape, or other condition)
RKSW	rocks in water
RKW	rock in water
RPDS	rapids
RSTN	railroad station
RSTP	railroad stop
RSV	reservoir
RUIN	ruins (fortification or other structure in a state of ruin)

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

SAND	sand area (former barrier beach now coalesced with the mainland and no longer fronting on the sea)
SCRP	escarpment
SHOL	shoal (offshore hazard to navigation, generally composed of unconsolidated material)
SPNG	spring, hot spring
SPUR	spur (sloping ridge extending laterally from a mountain or other elevation)
STM	stream
STMA	anabranch (stream that leaves and rejoins the main stream after a separate course for a considerable distance; common on flood plains)
STMC	canalized stream (stream that has been canalized, ditched, diked, or straightened)
STMD	distributary
STMI	intermittent stream (stream, no part of which is indicated as perennial)
STMX	section of stream (separately named part of a continuous stream not necessarily delimited by significant confluences)
SWMP	swamp (wetland, generally with trees)
UPLD	upland (broad elevated area with low to moderate surface relief)
WTLD	wetland (wet area of mixed tree and grass vegetation or one in which the vegetation is not specified)

Latitude and longitude. — Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, near the centers of areas, and at the midpoints of most other features.

Area number. — The number in the fifth column indicates the first-order administrative unit in which the place or feature is located, as listed below:

77000 Brazil (general)
77011 Rondônia, Território de
77012 Acre, Estado do
77013 Amazonas, Estado do
77014 Roraima, Território de (formerly Território do Rio Branco)
77015 Pará, Estado do
77016 Amapá, Território do
77021 Maranhão, Estado do
77022 Piauí, Estado do
77023 Ceará, Estado do
77024 Rio Grande do Norte, Estado do
77025 Paraíba, Estado da
77026 Pernambuco, Estado de
77027 Alagoas, Estado de
77028 Fernando de Noronha, Território de
77031 Sergipe, Estado de
77032 Bahia, Estado da
77033 Minas Gerais, Estado de
77034 Espírito Santo, Estado do
77035 Rio de Janeiro, Estado do
77036 Guanabara, Estado da
77037 Zona Litigiosa
77041 São Paulo, Estado de
77042 Paraná, Estado do
77043 Santa Catarina, Estado de
77044 Rio Grande do Sul, Estado do
77051 Mato Grosso, Estado de
77052 Goiás, Estado de
77053 Distrito Federal

The Território de Fernando de Noronha (77028) is comprised of the Arquipélago de Fernando de Noronha, the Penedos de São Pedro e São Paulo, and the Atol das Rocas in the Atlantic Ocean. The Zona Litigiosa (77037) is an area of unsettled jurisdiction between the states of Minas Gerais and Espírito Santo.

The general number (77000) is used for international features and for features in two or more administrative units.

Locational reference. — The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name.

01 *Carta do Brasil ao Milionésimo,* Conselho Nacional de Geografia, 1960. (An atlas; individually published sheets bear various dates.)

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

02 *Carta do Brasil,* Conselho Nacional de Geografia, various dates; scale 1:500,000.

03 *Carta do Brasil,* Conselho Nacional de Geografia, various dates; scale 1:250,000.

04 *Carta de Communicações,* Serviço Geográfico do Exército, various dates; scale 1:250,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. All of the terms are Portuguese, except as otherwise indicated.

açude	reservoir
água	stream
alagado	swamp
alto(s)	hill(s), ridge, upland, spur
aparados	escarpment
arquipélago	islands
arroio	stream, intermittent stream
atol	atoll
baía	bay, estuary, inlet, lake
baixo(s)	reef(s)
banco	marine bank, shoal, tidal flats
banhado	stream, marsh
barra	entrance
barragem	reservoir
bracinho	stream channel, distributary
braço	stream distributary, anabranch, entrance
braço de mar	inlet
brejão, brejo	stream, intermittent stream
cabeceira	stream
cabeços	hills, upland
cabo	cape, point, headland
cachoeira(s)	cascade(s), rapids, waterfall(s)
cachoeirinha	cascade
calhau	rock in water
campina	plain
campos	upland
cañada (Spanish)	stream
canal	marine channel, stream channel, stream section, anabranch, gorge
cascata	cascade
cerro (Spanish)	hill
cêrro	hill
chapada	hills, hill range, ridge, upland, spur
chapadão	spur
colinas (Spanish)	hills
contraforte	ridge
cordilheira	hill range, upland
corixa	stream, stream channel, anabranch, wetland
coroa	marine bank, shoal, reef, island, cascade
corredeira	rapids, cascade
córrego	stream, intermittent stream
coxilha	hill(s), hill range, ridge
curiche (Spanish)	marsh
distrito federal	administrative division (federal district)
enseada	cove, bay, bight
espigão	hill range, mountain, upland
estação	railroad station
estado	administrative division (state)
estados unidos	united states
estreito	tidal creek
fonte termal	hot spring
furo	stream, distributary, stream channel, anabranch, marine channel, tidal creek
galho	stream
garganta	gorge
grota, grotão	stream
igarapé	stream
ilha(s)	island(s), rock(s) in water

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100130003-1

ilhéu, ilhota, ilhote	island
lago(s)	lake(s), lagoon(s)
lagoa	lagoon, pond, lake, intermittent lake
laje	rock in water, reef
lajeado	stream
mar	marine channel
marimbu	stream
monte	hill, mountain, upland
morro(s)	hill(s), mountain(s), upland, ridge, peak, headland
outeiro(s)	hill(s)
parada	railroad stop
paraná	stream, distributary, anabranch, stream channel
parcel	shoal
passagem	reach
pedra(s)	rock(s) in water, hill, mountain
pedral	rocks in water
pico	peak, hill, mountain
planalto	plateau, upland
plataforma	railroad stop
ponta, pontal	point
praia	beach
quedas	rapid(s), cascade(s)
rapide (French)	rapid(s)
raso	upland
recife(s)	reef(s)
região	region
represa	reservoir
reservatório	reservoir
restinga	sand area, barrier beach
riachão, riacho	stream, intermittent stream
ribeirão	stream, intermittent stream
rio	stream, stream section, intermittent stream, distributary, anabranch, stream channel, estuary, tidal creek
riozinho	stream
rochedos	rocks in water
ruínas	ruins
saco	cove, bay, bight
salto	waterfall
sanga	stream
saut (French)	cascade
serra(s)	hill(s), mountain(s), upland, hill range, mountain range, ridge, escarpment, spur
serrinha	hill
serrote	hill, peak, upland
tabuleiro	upland
-tepuí (Indian)	mesa
território	administrative division (territory)
travessão	rapids, waterfall
trompa	upland
vala, valão	stream
varjão	marsh
vazante	stream
vereda	stream, intermittent stream
vertente	stream
volta	stream bend

Additional name lists

The following publications contain names not included in this gazetteer and may be helpful as finding lists, though the additional names in them are not necessarily those that would be approved by the Board as standard names:

Divisão Territorial do Brasil, Conselho Nacional de Estatística, Rio de Janeiro, 1961.

Ferrovias do Brasil, Conselho Nacional de Estatística, Rio de Janeiro, 1956.

Roteiro, Marinha do Brasil, Rio de Janeiro, 1958. In three volumes.

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.
