# FOREWORD

This gazetteer contains about 19,000 entries for places and features in Panama and the Canal Zone. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:50,000 or 1:250,000, depending on coverage, for Panama, and 1:25,000 for the Canal Zone. Entries include the names of first-, second-, and third-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one of the following map series: Canal Zone: *Panama 1:25,000*, E866, Army Map Service, 1958-63, full coverage. Panama: *Panama 1:50,000*, E762, Dirección de Cartografía in collaboration with Inter-American Geodetic Survey and Army Map Service, 1960 and later dates, about 60% coverage; *Panama 1:250,000* (*Especial*), Dirección de Cartografía, 1966, full coverage.

The authority of the Board on Geographic Names does not apply to the naming of offices or establishments of Federal agencies, such as those maintained in the Canal Zone by the United States Army, Navy, and Air Force and by the Canal Zone Government. However, for convenience of reference, the names of such establishments and of their separately-named components are listed in the gazetteer as determined from the usage of official sources. The major establishments can be identified in the listing by the designation code USGE, meaning United States Government establishment, but minor components, such as canal locks, dams, and populated places, are designated as they would be if they were not located within Federal establishments.

## Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Río Chico, the name of a stream, is listed as Chico, Río.

The acute accent ( ′ ), the tilde ( ˜ ), and the dieresis ( ¨ ) occur in Panamanian names, and should be used over both capital and lowercase letters.

The definite article (*el, la, los, las*) should be capitalized when in initial position in a name as listed in the gazetteer, e.g., La Piedra, Quebrada, and in other cases where capitalized in reliable sources, e.g., Llano de La Cruz; otherwise the article should be written in lowercase letters, e.g., Llano de la Palma.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. Some of the features named in this gazetteer do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

| | |
|---|---|
| ADMD | administrative division (first-order: *provincia, intendencia*; second-order: *distrito*; third-order: *corregimiento*) |
| AIRL | landing strip (paved or unpaved runway lacking most airport facilities and other improvements) |
| AIRP | airport |

|---|---|
| ANCH | anchorage (place within a harbor or roadstead where ships anchor) |
| BAY | bay |
| BCH | beach (deposit of sand or other unconsolidated material along a shore) |
| BDG | bridge |
| BGHT | bight (open body of water forming a slight recession in a coastline) |
| BND | stream bend |
| CAPE | cape (seaward end of a projection of land of such position and size as to affect the course of ships) |
| CHNM | marine channel (channel between coastal islands, reefs, or shoals; between an offshore feature and the mainland; or through a shallow marine waterbody) |
| CHNS | stream channel (separately named lesser channel around an island or bar in a stream) |
| CLF | bluff (higher elevation, without conspicuous exposed rock, overlooking a lower area such as a valley or the sea) |
| CNFL | confluence (place where two or more streams flow together) |
| CNLN | navigation canal |
| CNLX | section of canal |
| CONE | volcanic cone (cone-shaped elevation formed by volcanic eruption, usually with a crater or breached crater at the top) |
| COVE | cove (small bay; includes some lower parts of streams) |
| CRKT | tidal creek (watercourse tidal in all or most of its length; usually short, without extensive tributary drainage areas, and located in coastal marsh or other wetland) |
| CRTR | crater (of a volcano, extinct in this case) |
| CURV | curve (place where the Panama Canal changes direction) |
| CUTQ | abandoned cut (abandoned section of canal) |
| DAM | dam (barrier constructed across a stream to impound water) |
| ESTA | plantation (bananas) |
| ESTY | estuary (drowned lower part of a coastal stream) |
| FLL | waterfall |
| FLTT | tidal flat (coastal area alternately submerged and exposed by tide) |
| FORD | ford |
| GULF | gulf |
| HBR | harbor |
| HDLD | headland (conspicuously high piece of land jutting out into or fronting the sea) |
| HLL | hill (landform of moderate relief, moderate elevation, and small summit area) |
| HLLS | hills; hill range |
| HSP | hospital; dispensary |
| INLT | inlet (drowned indentation in the shore of a lake or reservoir, usually at the mouth of a stream) |
| ISL | island |
| ISLM | mangrove island |
| ISLS | islands |
| ISLX | section of island |
| ISTH | isthmus |
| LCTY | locality (minor area or place of unspecified or mixed character and indefinite boundaries) |
| LDNG | landing (place where small boats are tied up or beached when not in use; place where small boats touch land for the purpose of taking on or discharging people or cargo) |
| LGN | lagoon (waterbody along a coast, largely or wholly cut off from the sea by a barrier beach or fringe of islands) |
| LK | lake |
| LKS | lakes |
| LOCK | locks (of a canal) |
| MRSH | marsh (wetland characterized by grasses or bush vegetation and few or no trees; may include one or more permanent or intermittent waterbodies surrounded by marsh but not separately named) |
| MT | mountain (landform of conspicuous relief, moderate to high elevation, and small summit area) |

|---|---|
| MTS | mountains; mountain range |
| PASS | pass (way over or between mountains or other high land) |
| PCLI | independent political entity (republic) |
| PEN | peninsula |
| PLN | plain |
| PPL | populated place (city, town, village, settlement) |
| PPLX | section of populated place |
| PND | pond |
| PRN | penal colony (prison settlement) |
| PRT | port (place where water-borne cargo is transferred to and from ships, including facilities for berthing ships and handling cargo) |
| PT | point (minor projection of land into a waterbody, or its extremity) |
| RCH | reach (straight section of a stream or of the Panama Canal) |
| RDGE | ridge (elongated, relatively narrow relief feature with a more or less continuous crest) |
| RF | reef(s) (offshore consolidated-rock hazard to navigation with a least depth of ten fathoms or less) |
| RGN | region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or combination of conditions) |
| RKSW | rocks in water |
| RKW | rock in water |
| RPDS | rapids |
| RSTP | railroad stop |
| RSV | reservoir (large artificially impounded body of water) |
| RUIN | ruin(s) |
| SD | sound (broad, open body of marine water more or less circumscribed by islands, rocks, shoals, and/or the mainland) |
| SEA | sea |
| SHOL | shoal(s) (offshore hazard to navigation composed of unconsolidated material and having a least depth of ten fathoms or less) |
| SLID | slide (unstable side of a hill) |
| SLP | slope (gradient on the side or end of an elevated relief feature) |
| STM | stream |
| STMA | anabranch (lesser stream that leaves the main stream and rejoins it after following a separate course for a considerable distance) |
| STMC | canalized stream (stream that has been canalized, ditched, diked, or straightened for any pupose, yet retains in part the characteristics of the original stream) |
| STMD | distributary (secondary watercourse carrying part of the drainage of a larger stream into another waterbody; characteristic of deltas) |
| STMI | intermittent stream (stream, no part of which is indicated as perennial) |
| STMM | stream mouth |
| SWMP | swamp (wetland, generally with trees; may include one or more permanent or intermittent waterbodies surrounded by swamp but not separately named) |
| USGE | United States Government establishment |
| WTCD | deltaic watercourse (lesser watercourse connecting distributaries or other drainage features on a delta) |
| ZNF | free zone (section of the port of Colón) |
| ZNL | leased zone |
| ZOO | zoo |

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of capes and points, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the first-order administrative division in which the place or feature is located, as listed below:

| | | | |
|---|---|---|---|
| 71700 | Panama (general) | 71706 | Los Santos |
| 71701 | Bocas del Toro | 71707 | Colón |
| 71702 | Chiriquí | 71708 | San Blas |
| 71703 | Veraguas | 71709 | Panamá |
| 71704 | Coclé | 71710 | Darién |
| 71705 | Herrera | 71750 | Canal Zone |

The general number 71700 is used for international features and for features in two or more first-order administrative divisions.

Glossary of generic terms.—The following terms occur as non-English generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. The terms not designated as Cuna are all Spanish.

## Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C., 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
