Arms and Machinery Equipment Plants 71 and 74 form a single integrated installation which is located in the central part of the city of Izhevsk, USSR. Reports have indicated that in the past these plants were involved in the Soviet missile program. 1/ A preliminary search of new photography revealed no definite evidence of missile production.

The photography shows expansion in the vicinity of the plant (Figure 1). A large fabrication building having an estimated 400,000 square feet of roof cover is located in Area A adjoining the southwestern side of the plant. This building was first observed in [redacted] when it was in the midstage of construction. New construction which also may
