After the current order to RFT Stotteritz for the manufacture of 3,200 radio sets of types B and F (field radio and portable type D sets) and 1,400 field telephone sets, type 51, no new orders were to have been given by the Volkspolizei to this plant, which was already prepared for producing telemeters (Messendern) and broadcasting sets when a new order was given for the building of technical radio equipment for Volkspolizei and for reparations deliveries. The plant has also been granted a government credit to permit a change-over to assembly line production. The amount of the orders has not been determined.
