RECORDS MANAGEMENT DIVISION

Chief, Management Staff

Comment on S.2364

1. The authority contained in this proposed legislation is essential to the mission of National Archives and Records Service, and in no way conflicts with our records management program.

2. The Agency program does follow policies and principles prescribed by GSA and will continue to do so where there is no conflict with Public Law 110.

3. Present plans provide for maintenance of Agency Archives in the Records Center [redacted] The provisions of this bill relating to transfer of 50 year old records to National Archives could not affect this plan until after 1991. Then, the exemption provision of Public Law 110 could be applied if desired.
