Prop. Leg.

OLC 78-2158/12
9 August 1978

NOTE FOR: Mr. Hitz

FROM : [redacted] STAT

SUBJECT : Stan Taylor, SSCI staff, and anti-terrorism

1. It seems to me that Stan Taylor has been extremely helpful in seeing to it that the anti-terrorism legislation (S. 2236) was handled properly by the Committee. Moreover, he was extremely helpful to us in the following ways:

a. Met with us prior to the hearing to discuss best possible strategies.

b. Suggested what would be and what would not be accepted by the Committee at hearing.

c. Insured that we were aware of "curve balls" before the hearing.

d. Kept us apprised of all Committee actions, open and otherwise, during discussion and mark-up process.

e. Encouraged acceptance of all of our suggested amendatory language-all of which was accepted.

f. Permitted us to review Committee report in draft for comments and corrections-all of which he accepted gracefully.

2. Although one may argue that the foregoing is the way things should always go, that is not often the case. Therefore, I suggest that a call or letter from you, in whatever manner is most appropriate, would be in order.
