MEMORANDUM FOR: Director of Logistics

SUBJECT : NIS Workload for FY 1974

1. On the basis of the DCI's decision to discontinue CIA's support of the NIS Program, we are planning an orderly phaseout of all NIS operations during FY74. All NIS inputs from contributing agencies will be terminated by 1 January 1974, and we expect to forward the last General Survey to PSD for printing by 1 March 1974.

2. Our estimate of PSD's FY74 NIS workload (material to be forwarded to the printer after 30 June 73) is 23 General Surveys comprising 180 chapters. This includes 18 Surveys or 140 chapters from the FY73 schedule and 5 Surveys or 40 chapters from the revised FY 1974 schedule. Except for the General Survey on the U.S.S.R. which might be about 50% larger than the others, we anticipate no significant change in folio count per Survey.

3. We will try to maintain an even flow of General Survey manuscripts to PSD -- about 22 chapters per month.

4. In addition, we have on hand several partially reviewed detailed sections. If our General Survey workload permits, we hope to complete the processing of one or two of these.

5. The Factbook will remain unchanged for FY74, and plans are to continue publishing it despite the termination of the NIS Program.
