Trans. of Zeitschrift für Physik (Germany) 1932, v. 75, p. 622-647. (Abstract available)

DESCRIPTORS: *Quantum statistics, *Field theory, Operators (Mathematics),

The connection between the method of quantized wave functions and the method of coordinate space is examined. The operators of second quantization are represented in a set of configuration spaces for 1, 2, ... particles. The representation which is obtained makes possible a simple derivation of the Hartree equations with exchange. (Author)
