1. Personnel of the Main Administration for Radio (HV-Funk), East German Ministry for Post and Telecommunications, were not able to move from their present offices to Leipziger Strasse 5-7, as had been planned, until 7 July 1953. All the rooms in the present HV-Funk offices are overcrowded, and as a result very little work can be accomplished. It has been planned to transfer whole offices in order to make space available for the entire HV-Funk. The only office which has thus far been ordered to move from the Leipziger Strasse 5-7 is the Referat Erzeugnisbau und Auftragswesen.

2. The former table of organization of HV RFT called for 96 slots. HV RFT has now been assigned 156 slots, however, because of the additional functions assumed to it during the recent reorganization. At present, there is a serious shortage of trained technical personnel. The following are currently members of the directorate of HV RFT:

Director	-Hermann (fnu)
Chief of Cadre and Personnel	-Melchers (fnu)
Production Manager	-Rotenburg (fnu)
Chief of Marketing and Delivery Department	-Spillner (fnu); he will soon be replaced, however, since it is planned to make him a new department chief in the Central Marketing Department of the Ministry for General Machine Construction.
