CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

June 1962

This Gazetteer is issued as a standard component of the National Intelligence Survey for Central African Republic and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 15,700 entries for places and features in the Central African Republic, the former Ubangi-Shari (Territoire de l'Oubangui-Chari) of French Equatorial Africa. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The names in this gazetteer supersede those in all previous Board lists for the area.

The map scale of name coverage is approximately 1:200,000.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name. — Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names that include specific and other elements (except names of populated places) are alphabetized by specific part; thus Kaga Embou is listed as Embou, Kaga.

The diacritical marks used in the approved names are the acute (´), the grave (`), the circumflex (ˆ), and the dieresis (¨), all of which occur over vowels, and the cedilla (¸) which is written under the letter c. They are to be used whether the names are written in capital or lowercase letters.

The first letter of all separate words except non-initial articles, prepositions, and conjunctions should be capitalized.

A characteristic of the nomenclature of the Central African Republic is the frequent occurrence of two or more small populated places, streams, or other features with identical names within short distances of each other. In some cases neighboring features of the same name are identified by the use of numerals; e.g., Bakiti, Bakiti I, and Bakiti II. Entities with the same name are individually listed in the gazetteer as shown on the maps of the area.

Designation. — The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied in this gazetteer are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named.

ADMD	first-order administrative division
CAVE	caves
CLF	cliff
CMP	campsite
DUNE	dune(s) (see also SAND)
ESTA	agricultural estate, plantation (large commercialized agricultural landholding with associated buildings and other facilities)
FLLS	waterfall
FRST	forest, forest reserve
GRGE	gorges (two or more narrow, steep-sided sections of a watercourse collectively named)

RESW	wildlife reserve
RKL	rock on land
RPDS	rapids (may include some waterfalls not differentiated from rapids)
SAND	sand area (see also DUNE)
SCRP	escarpment
SPNG	springs, hot springs
STM	stream (river or other running fresh waterbody, perennial in whole or in part)
STMI	intermittent stream
SVNA	savanna (natural grassland interspersed with trees or bush)
TRB	tribal area
WAD	wadi (part of a watercourse or drainageway that carries occasional flows of water)
WTLD	wetland(s) (presence of trees or grasses not specified; includes some permanent or intermittent waterbodies surrounded by wetland but not separately named; see also MRSH)
WTRH	waterhole (place where water temporarily collects following rain; usually at or near the ground water table; see also POOL)

Latitude and longitude. — Coordinates, in the third and fourth columns, are for finding purposes only. They were generally read to the nearest minute. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, at the extremities of points, near the centers of areas, and at the midpoints of most other features.

Area number. — The number in the fifth column indicates the administrative unit in which the place or feature is located, as listed below. (In a few instances features could not be located with certainty by administrative unit.)

54900 Central African Republic (general)	54907 Kémo-Gribingui
54901 Ouham-Pendé	54908 Ndélé
54902 Bouar-Baboua	54909 Ouaka
54903 Haute-Sangha	54910 Basse-Kotto
54904 Ouham	54911 Birao
54905 Ombella-Mpoko	54912 Haute-Kotto
54906 Lobaye	54913 Mbomou
	54914 Zandé

The general number (54900) is used for international features and for features in more than one of the numbered subdivisions of the country.

Locational reference. — The number in the last column indicates a map or chart on which the feature may be located by its standard name or a recognizable variant of its standard name.

01 *Croquis Provisoire de l'A.E.F. et du Cameroun,* Service Géographique de l'A.E.F. et du Cameroun and Institut Géographique National, scale 1:200,000.

02 *Croquis Provisoire de l'A.E.F. et du Cameroun,* Service Géographique de l'A.E.F. et Cameroun, scale 1:1,000,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur in the standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington 25, D. C. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
