MEMORANDUM FOR THE SECRETARY OF DEFENSE

SUBJECT: Special Intelligence Support Relating to the Kidnapping of BG Dozier - INFORMATION MEMORANDUM (S)

(S/NOFORN) The Defense Intelligence Agency and the U.S. Army Intelligence and Security Command (INSCOM) have recently provided information to U.S. and Italian authorities to aid in their search for BG James L. Dozier.

(S/NOFORN) This data was provided by message (Enclosures 1 and 2) and data package (Enclosure 3) to U.S. authorities for discreet release to Italian officials with no source attribution given. The source of data was from both a DIA and U.S. Army INSCOM jointly funded effort known as Project GRILL FLAME. This effort was established in FY 81 and involves the use of the ability of certain individuals to mentally collect data at a distance. Although this project is still in the experimental stages, sources of mentally derived data have been useful at times in past operational experiments.

(S/NOFORN) We can not at this time attest to the method's accuracy or usefulness of the derived data. However, it is hoped that information provided may be helpful in narrowing down search possibilities and will aid in the ultimate location of BG Dozier.

Coordination within OSD is not required.

Enclosures:
DIA Message 190915Z Dec 81, (S/NOFORN) 1 cy
INSCOM Message 222100Z Dec 81, (C/NOFORN) 1 cy
Data Package, 22 Dec 81, 1 cy
