

Welcome to Andromeda Software Product Summary

We are pleased to present the **Andromeda Product Demos Folder**. The Plug-in product demos are divided into Production Software Sets for easier recognition. The demo installers are located in their respective folders with any tutorial images or Quickstart Guides that are available.

Some of the Demos are functional, that is they will allow output back to Photoshop. The Tectures Filter allows full use of a limited number of texture tiles provided within the demo. The Series 1 Demo allows full use of the cMulti filter which is one of 10 Filters in the Series 1 Product. Please refer to each product **readme file** for specific information.

Below is a product summary and information on how to **contact us**. We hope you enjoy using and learning with our products. Visit our on line store to purchase products, or get more info at www.andromeda.com

PHOTOGRAPHIC TOOLS AND LENS EFFECTS

Andromeda VariFocus Filter

Defocus then Focus to the Point - this depth of field effect is an Andromeda developed variable defocusing technology. Focus on an area by using our aperture masks or import your own. Distort, shift and save masks. Use the positive and negative unsharp masking controls before you apply focus/defocus to sharpen your image or to create a special effect.

Andromeda LensDoc Filter

A universal solution to lens distortions - A Photoshop compatible plug-in that corrects barreling and pincushioning distortions in your photos which are produced by many zoom and wide angle lenses. LensDoc also allows you to make simple perspective and rotational adjustments. Use the easy step by step Novice interface, or Professional level Expert Mode. Identify curved lines that should be straight and place the target points, LensDoc does the rest.

Perspective Filter

View and manipulate your image through our "lens" - A unique Photoshop compatible plug-in that uses a camera paradigm to introduce or enhance depth or perspective distortions in your images. Change and conform multiple images or text characters. Use factory presets with a visual interface or create your own. A quick and intuitive perspective tool.

ARTISTIC SCREENING TOOLS

Andromeda Screens Filter

Line Conversion and Mezzotint Master... Reinvented for the desktop. Converts gray-scale into a wide variety of different line art screens from 15 to 400 lpi. featuring mezzotints, sharp contrast mezzograms, mezzoblends, ellipses, lines, circles, spokes, waves or any blended combination. A 5 star, World Class Winner!

Andromeda Cutline Filter

Digital Engraving and Woodcut Effects

The Andromeda Cutline Filter for digital engraving and woodcuts, has four screens uniquely suited for exceptional hand engraved and woodcut effects. Specific tools allow for positioning and adjustment of directional screen lines.

Andromeda EtchTone Filter

Continuous Tone Art - Andromeda has developed a unique process for filter simulating the look of a steel etch starting with gray/color photograph or illustration. The resulting etched continuous tone output resembles age old printing that just softens the harshness of the solid black and white etching.

GRAPHIC DESIGN RESOURCES

Andromeda Three-D Filter

99% of Your Daily 3D Requirement. (Series 2) Offers true 3D surface wrapping, viewpoint control, image and surface manipulation, and shading for scene building and compositing images, 3-D visualization and package design. **A digital product only.**

Andromeda Three-D Luxe Filter

Don't just Surface Wrap! The best 3-D plug in for quality rendering. Expands the functionality of it's predecessor (Series 2) to include texture wrapping and combining images from Photoshop using textures and new features within the Filter. Add the new dropout, texturing and combine features to your imported image; or create a whole new one. New features include Stressed, Riveted, Aged, Mesh, and Alien sculpted surfaces. Combine 3D textures, 3D surface and your input photo. Adjust the contribution from each layer for **phenomenal effects...**

Andromeda Techtures Filter

Not just another texture library - Techtures offers over 500 hand rendered tiles which can be modified using "engines" within the filter and dozens of instant special effects: Smoke, Stars, Explosions, Water Droplets, Lightening, Embossing, and dimensional and environmental texturing.

Andromeda Shadow Filter

Real Three-D Shadowing - No other shadowing plug-in has these features: Natural soft edges and Blurring, Drop and Cast shadows imposed on a Moveable Plane, Multiple Shadowing with Four Moveable Lights, Perspective Shadows with a Virtual Camera and Stereo 3D Viewing.

Andromeda Velociraptor Filter

Wildly Different Motion Trails - You'll notice the difference when you create your first motion trail. Velociraptor is the only plug-in filter that allows the user to create stylized motion trails that can Arc, Bounce, Cascade, Converge, Curve, Decline, Diminish, Jolt, Jitter, Loop, Spiral, Spring, Streak, Trail, or Wave.

SCIENTIFIC TOOLS

Andromeda Measurement Filter

For Medical-Scientific or Graphic Arts Image Analysis. Examine an image with more detail and flexibility than can be done in Photoshop. The Measurement Filter uses paths as rulers for measurement. Line Profiles, Histograms, Distance, Angles. Simultaneously examine same data in multiple formats. Output measurements to the clipboard. New rulers (paths) can be imported, created and edited with a full Illustrator like tool set inside the filter.

PLUGINS FOR PAGEMAKER™

Andromeda PhotoTiler Plug-in

Arrange It Quick and Easy! An essential Plug-in for Adobe PageMaker. Loads and labels images automatically. Provides batch loading. Adjust margins, number of cells, spacing, rules, autoscale and captioning for batch processing. Perfect for print or web image organization, photo albums, catalogs, and real estate and car ads.

ANDROMEDA ONLINE SERVICES

The logo for eFXservices.com, featuring the text "eFXservices.com" in a stylized font with "e" in red, "FX" in blue, and "services.com" in red.

eFXservices.com website - An online Photo Effects site powered by Andromeda Software Inc. Use these web enabled plug-in effects, image correction, and layout templates online using a standard browser.. A free demonstration and evaluation site is available. You are invited to use the services to see how the Internet can be your application for photo manipulation.

The logo for eARTservices.com, featuring the text "eARTservices.com" in a stylized font with "e" in red, "ART" in yellow, and "services.com" in red.

eARTservices.com website - Three unique studios of hand rendered images, digitized, offering a collection of fine art paintings and sketches. The collection at the www.eARTservices.com studios website emphasize a variety of fine art styles and themes carefully hand done with minimal background for digital media use. Comp. sized image examples are on this CD inside the Andromeda Online eFX-eART Folder.
