U.S. AIR FORCE FC-041

OVER 150,000 NON SYSTEM FRAMES OF PHOTOGRAPHY ANNUALLY ARE RESEARCHED AND PROCURED IN SUPPORT OF NPIC'S NATIONAL DEPARTMENTAL RESPONSIBILITIES

25X1

NON-SYSTEM PHOTOGRAPHY

1. Over 150,000 Non-System frames (aerial & ground) annually are researched and procured by CSD in support of NPIC's National and Departmental responsibilities.

2. Numerous and varied sources are involved in this collection effort.

- Established USAF & USN aerial reconnaissance programs.
- Military attaches, friendly foreign governments
- CIA, OD, P
- Open source (newspapers, magazines, trade journals, etc.)
- Foreign & U.S. commercial sources.

3. In many cases established Non-System photography has provided excellent late date coverage of CONUR targets. It is often used for comparative purposes with System materials. Or detailed reporting ground photography often provides a perspective that is all-important in discerning the detail necessary in publishing detailed reports.
