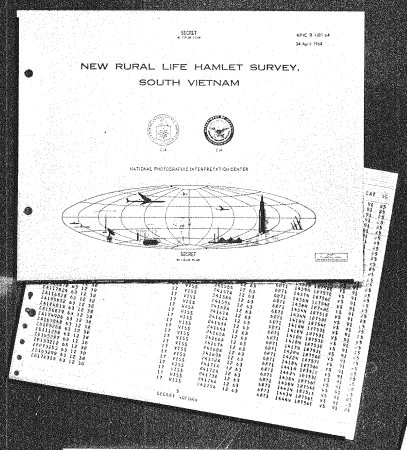
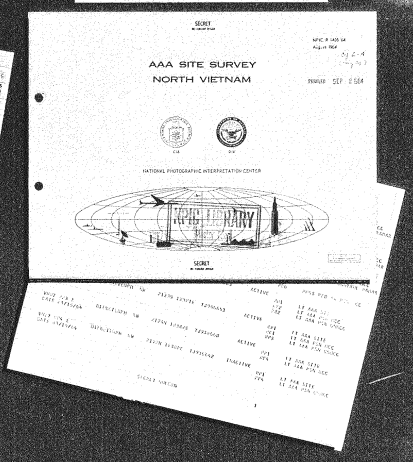
SPECIAL INDEXES



NORTH VIETNAM AAA SURVEY

This survey is a statistical OB study of the AAA Sites in North Vietnam. A work sheet was produced for each AAA Site which was indexed into a statistical format. The result of this input is a cumulative statistical listing in four parts as follows:

- Installation number within province
- Alphabetic - Installation name
- Coordinate
- Installation number within Military District



NEW RURAL LIFE HAMLET SURVEY, SOUTH VIETNAM (VISS)

This survey is a study of the strategic hamlets in South Vietnam. One short reports were produced which included a photograph and a brief description of each hamlet.

These VISS reports were indexed into the All-Source format. A cumulative IBM listing for distribution was published in four part sequence as follows:

- Installation Number
- Geographic Coordinates
- NTM Coordinates
- Mission Number

Each VISS was also coded for input into Minicoid for search retrieval and for limited reproduction.
