The Berliner Elektrizitaetswerke AG (Electric Works Inc. in Berlin) was ordered to increase the output of the Klingenberg Power Plant to 220 Mw by 1 October 1952. However, it is doubted whether it will be possible to complete the two 160 ton boilers on schedule, because of shortages of material. *

* Comment. The output of this power plant is 185 Mw at present. The two boilers which are to be installed during this year are scheduled to be fired with crude brown coal.
