MEMORANDUM FOR THE RECORD

SUBJECT: HSC Interviews

I discussed with Searle Field the need for someone from the Agency (and from a host agency for detailees) to accompany persons called for interviews. Field had no objection so long as their presence was requested by the interviewee as his personal advisor and did not represent CIA or the host agency. The interviewee would be asked specifically if he wanted them present. In cases of questionable activities they would want the interviewee to have genuine legal counsel, not an Agency advisor. They would review the advisor's role if they suspected that his presence muffled free speech by the interviewee.
