1. Altenburg (E27): A tactical formation of four planes was was observed from the ground. Tow targets were being used for aerial gunnery practice.

2. Dresden-Klotzsche (V29): Air activity has greatly increased since 15 July. About 50 pursuit planes and also "a few" twin-motor transports are based at this field.

3. Dresden-Hellerau (V28): An increase in night air activity has been observed. Russian bi-planes are being used.

4. Kamenz (A41):

a. Preparations are being made to use the airfield. The animals formerly grazing there have been removed and the inn, bordering on the southern part of the field, has been taken over for billets.

b. Trucks with a repair shop arrived 14-15 July. On 17 July, a steady stream of trucks arrived at the field. There were 52 fuel trucks and about 300 trucks carrying twelve 200 liter gasoline drums each. About 50 trucks were loaded with troops, barbed wire, tools, etc.
