REF : (a) EGHA 2332 — GEHLEN - 201
(b) EGLA 16116

1. The information contained in ref (a) was given to [ ] in a most informal manner. It is believed that if knowledge of the passing of this information was known to certain individuals in G-2 they would probably object.

2. [ ] queried the source of the info in ref (a) concerning any ODOPAL operations directed against Zietlow. The source assured [ ] that ODOPAL was running no operation against Zietlow or that involved him. This may seem a little bit difficult to believe, but [ ] is of the opinion that it is so. [ ] does not know the details of the workings of the intercept mechanism, but the fact that Zietlow is somewhat out of the normal sphere of [ ] responsibility tends to support the statement that they are running no operations against him. It would not be beyond the realm of comprehension that the British may have an eye on Zietlow, although no hint of this was given by the source of the information in ref (a).
