FOREWORD

This gazetteer contains about 21,000 entries for places and features in Laos.

The names in this gazetteer supersede those in all previous Board lists for the areas concerned.

The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.* Cross-references usually have not been provided for variant names which differ from approved names only in the spelling of the following generic terms, some of which may appear at the beginning of a name:

Variant spelling	Standardized spelling
houeï, houey, huai, huôi	*houay*
phu, peu, pu, p'u, pou	*phou*

The basic name coverage corresponds to that of maps at the scale of 1:250,000. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Most of the entities can be identified and located by the approved name or a recognizable variant of the approved name on one or more of the following sources:

1. *Joint Operations Graphic* (Ground), Series 1501, Army Map Service/U.S. Army Topographic Command, 1967-1969; scale 1:250,000
2. *Laos 1:50,000,* Series L7015, Army Map Service/U.S. Army Topographic Command, 1965-1969.

Evaluation

The quality of the names in this gazetteer varies widely since fewer than fifty percent of the names were available in Laotian script on official source materials, and since many names derive from languages other than Laotian. Normalization of the spellings of particular words has been minimal. Those names which were available in Laotian script were romanized in accordance with the BGN/PCGN 1966 Transliteration System for Laotian [See pp. v through ix] (e.g., *Ban Haithôngxôm; Xé Dôn*). The remainder, except for a limited number of French and English conventional forms (e.g., *Col de Lin Va; Plain of Jars*) and names of a few features on or near a border for which Laotian forms were not available (e.g., *Ban Woen Khwan; Làng Âp Py*), appear in a traditional spelling (e.g., *Ban Som Phone; Om Slir*).

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus *Nam Heu,* the name of a stream, is listed as *Heu, Nam.* Where part of a name is underlined, the use of the part not underlined is optional. If two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Local names of international features are identified by major-political-entity labels. Where only one country is identified parenthetically, no name is available for the feature in the other country or countries.

When written in both capital and lowercase letters, each separate word and each name element which follows a hyphen should begin with a capital letter, except French and English prepositions and French articles. The apostrophe should be followed by a lowercase letter. In addition to *d* which may

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

appear in Vietnamese words, the following diacritical marks may appear on various vowel letters in names of the following types: (The letter v represents a vowel letter.)

Romanized Khmer:	acute (v), circumflex (v), breve (v)
Romanized Laotian:	acute (v), circumflex (v), grave (v)
Romanized Thai:	none
French:	acute (v), circumflex (v), grave (v), dieresis (v)
Vietnamese:	(v v v v v v v v v v v v v v v v)

Designation.—The second column contains designations or abbreviations of designations of the entities to which the names apply, as listed below. Because practically all geographic terms have varied meanings, the senses in which many of the designations are applied *in this gazetteer* are stated in the list to reduce ambiguity. It should be noted also that the differentiations of terms that can be made in any gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Laos some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	first-order administrative division (*khouèng*); second-order administrative division (*muang*)
CAVE	cave (underground cavity, usually in soluble rock)
CMPM	military camp
CULT	cultivated area (includes rice fields)
DAM	dam (barrier constructed across a stream to impound water)
FRST	forest
GLD	glade (natural opening in a forest or woods)
HLL	hill (landform with moderate relief, moderate to low elevation, and small summit area)
HLLS	hills
ISL	island
LCTY	locality (minor area or place of unspecified or mixed character and indefinite boundaries)
LK	lake
LKI	intermittent lake (seasonal water body which becomes a lake during periods of rain but which dries up or becomes a marsh or waterhole during the dry season)
MNQR	quarry
MRSH	marsh (wetland characterized by grasses or bush vegetation and few or no trees)
MT	mountain (landform with conspicuous relief, moderate to high elevation, and small summit area)
MTS	mountains; mountain range
PASS	pass (way over or between mountains or other high land)
PCLI	independent political entity (kingdom)
PK	peak (separately named summit on a more extensive elevation)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
PLN	plane (landform of low relief, slope, and elevation)
PND	pond (small standing water body)
PNDI	intermittent pond
PPL	populated place (city, town, village, settlement)
PPLQ	abandoned village
PPLW	destroyed village
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
RH	resthouse (structure for the rest and shelter of travelers)
ROAD	road
RPDS	rapids
RSV	reservoir (large artificially impounded body of water)
RUIN	ruins (structure in a state of ruin, but not necessarily of great antiquity or archeological interest)
SINK	sinkhole (hole, cavern, or funnel-shaped cavity made in the earth by the action of water on the soil, rock, or underlying strata)

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

SLP	slope (gradient on the side or end of a mountain or other relief feature, less steep than a cliff)
SPUR	spur (short sloping ridge extending laterally from a mountain or other elevation)
STM	stream (river or other running fresh water body, perennial in all or a part of its course)
STMI	intermittent stream (stream, no part of which is indicated as perennial)
STMX	section of stream (separately named part of a stream, not delimited by significant confluences)
SWMP	swamp (wetland, generally with trees)
TMPL	temple
TNL	natural tunnel
WTLD	wetland (marsh, swamp, or other poorly drained area with a mixture of tree and grass vegetation or with unspecified vegetation)

Latitude and longitude.—The third and fourth columns list geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only. For precise location, large-scale maps should be used.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, and near the centers or midpoints of most other features.

Area number.—The number in the fifth column indicates the first-order administrative division (*khouèng*) in which the place or feature is located, as listed below: ,

46700	Laos (general)	46709	Savannakhét
46701	Houakhong	46710	Saravan
46702	Phôngsali	46711	Attapu
46703	Louangphrabang	46712	Champasak
46704	Houaphan	46713	Borikhan
46705	Xaignabouri	46714	Vapikhamthong
46706	Vientiane	46715	Xédôn
46707	Xiangkhoang	46716	Sithandon
46708	Khammouan		

The general number (46700) is used for international features and for features in two or more first-order administrative divisions.

Glossary of generic terms

The following terms appear in the generic parts of standard names in the gazetteer. The English term or terms which correspond to each local term were applied after objective study of cartographic and other source materials, and do not necessarily reflect dictionary or other normalized usages. The parenthetical abbreviations (Ch), (Fr), (Kh), (L), (Th), (UKh), (V), and (?) designate respectively, Chinese, French, Khmer, Laotian, Thai, Upland Mon-Khmer (which comprises a number of related languages and dialects), Vietnamese, and uncertain. Those not so designated are Laotian.

bung	pond, marsh
chaîne (Fr)	mountain range
chang (Ch)	mountain
ching (Ch ?)	stream
chong (Th)	pass
co (UKh)	mountains(s), spur
col (Fr)	pass
dak (UKh)	stream
dan (UKh)	hill
dèo (V)	pass
doi (Th)	hill, mountain
doi phu (Th)	mountain
don	island
dông	forest
dông (UKh & L)	hill, mountain
doy	hill, mountain
hat	rapids
ho, hô (Ch ?)	stream
hong (UKh ?)	stream, intermittent stream
hou	cave
houay	stream, intermittent stream, stream section
huai (Th)	stream
kaeng (Th)	rapids

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

kèng ..... rapids
khao ..... mountain
kho (Ch ?) ..... stream
khong (UKh ?) ..... mountain, spur, hill
khouèng ..... first-order administrative division
kiou ..... pass
ko (UKh) ..... mountain, spur, mountain range
kông (UKh) ..... mountain
kouan (UKh) ..... hill, mountain
lèng (Ch ?) ..... mountain
liang (Ch) ..... mountain
massif (Fr) ..... mountain(s), mountain range
mènam ..... stream
môc, môk (UKh) .... mountain, hill
muang ..... second-order adminstrative division
na ..... cultivated area
nam ..... stream, intermittent stream, stream section
ngoc, ngok (UKh) ... peak, mountain
nong ..... lake, pond, intermittent lake, intermittent pond, marsh
núi (V) ..... mountain
ô (Kh) ..... stream
pha ..... hill(s), mountain, peak, ridge
phnom (Kh) ..... mountain
phou ..... hill(s), mountain(s), peak, ridge, spur, slope, mountain range
phu (Th) ..... hill, mountain
plateau (Fr) ..... plateau
sala ..... resthouse
san ..... mountain, peak
sayphou ..... ridge, mountain range
sông (V) ..... stream
suôi (V) ..... stream
tam (UKh) ..... stream
tham ..... cave, natural tunnel
thiu khao (Th) ..... mountain range
thông ..... plain, wetland
tom, tôm (UKh) ..... stream, intermittent stream
tonlé (Kh) ..... stream
vang ..... pond
vat ..... temple
xé ..... stream, intermittent stream

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.

TRANSLITERATION SYSTEM FOR LAOTIAN
BGN/PCGN 1966 System

The BGN/PCGN 1966 System for the transliteration of Laotian is that adopted by the Commission Nationale de Toponymie (CNT), but with the Vowel Table filled out and the Notes added. These additions make it possible for those who have little or no knowledge of Laotian to apply the system.

A. Consonants

	Laotian Script	Latin Script Initial	Latin Script Final
1.	ກ	k	k
2.	ຂ	kh	
3.	ຄ	kh

C. Notes

1. In the Vowel-Table, x stands for any consonant, and y stands for any permitted syllable-final consonant (ກ k, ງ ng, ຍ y, ດ t, ນ n, ບ p, ມ m, ວ o).
2. ຍ y, in non-initial position, is often found written in a secondary form, ຽ .
3. ຣ r, occurs in syllable-final position only in a few foreign words. It is then written ຣ์ , and although unpronounced, is transcribed r, thus: ເບີ์ร์.
4. ວ is transcribed with the letter v only in syllable-initial position, thus: ວັດ vat, ທັນວາ thanva, ຣະວັງ ravang. When medial ວ is followed by a syllable-final consonant, it is transcribed oua, thus: ບວກ bouak, ດ້ວຍ douay. When medial ວ is followed in the same syllable by a vowel, it is transcribed o, thus: ຂວາ khoa, ຄວາມ khoam, ສວາຍ soay, ແຂວງ khoèng. When ວ is in syllable-final position, it is transcribed o, thus: ນາວ nao, ແກ້ວ kèo, ດຽວ diao. The sequences ີx ວ and ັx ວ , however, are transcribed iou.
5. ຫ h, before ຍ gn, ນ n, ມ m, ຣ r, ລ l, and ວ v, is not transcribed, thus: ຫລວງພຣະບາງ Louangphrabang, ຫຍ້ານ gna. ຫນ, ຫມ, and ຫລ are often written as ligatures, thus: ໜ n, ໝ m, ຫ l respectively.
6. ອ, the "vowel-bearer", is used in initial position for syllables beginning with a vowel. When at the beginning of a word, it is not transcribed, thus: ອ ີ ກ ik. When syllable-initial, but

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

within a word, it is transcribed by means of a hyphen, thus: บ้านแก้งอี Ban Kèng-I.

7. Clusters other than those already mentioned are transcribed in full, even though the second element is silent, thus: บ้านวัดพระไซ Ban Vatphraxai, คลิสเตียน khlitsatian.

8. The only consonants which can end a syllable have been listed in Note 1. When a consonant other than these occurs in syllable-final position, it is transcribed as though preceded by its permitted homorganic syllable-final and followed by the vowel ะ a, thus: จัตวา chattava (as though written จัดตะวา), วิทยาสาด vitthagnasat (as though written วิดทะยาสาด).

The permitted homorganic final corresponding to ข kh and ค kh is ก k.

The permitted homorganic final corresponding to จ ch, ซ s, ฉ x, ต t, ถ th, and ท th is ด t.

The permitted homorganic final corresponding to ร r and ล l is น n.

The permitted homorganic final corresponding to ป p, พ ph, and ฟ f is บ p.

Graphic syllable-final ฉ , however, is transcribed tsa (not txa), thus: ขัราฉกาบ kharatsakan.

9. The tone-marks are not indicated in transcription, thus: นา, น่า, น้า, น๊า, and น๋า are all transcribed simply na.

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

10. The specific element in a geographic name is written, in transcription, as one word, no matter how many meaningful elements it may contain. Generic terms and other distinguishing words modifying the specific element are written separately, and capitalized, thus: บ้านเก้งหมาอ้ Ban Kèngmavo. In one-word name-elements, non-initial syllables beginning with the "vowel-bearer" อ are transcribed preceded by a hyphen, the syllable-initial vowel being capitalized, thus: บ้านเก้งอิ Ban Kèng-I.

11. Certain obsolete letters, such as ฑ s, ฏ t, ฐ t, ฉ tsa, and ฬ l have been omitted from the Table. So also obsolete ligatures of the type ฑฺ th-n, ฑฺ th-m, and the diacritic-mark ฺ (historically an l) written beneath certain words in order to distinguish them from words otherwise of identical spelling (ปฺา pa 'fish', ป่า pa 'forest').

Zambia; 1972; 38,000

Haiti, Second Edition; 1973; 13,000

Laos, Second Edition; 1973; 21,000

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200060001-0

Created in 1849, the Department of the Interior—America's Department of Natural Resources—is concerned with the management, conservation, and development of the Nation's water, wildlife, mineral, forest, and park and recreational resources. It also has major responsibilities for Indian and Territorial affairs and for standardization of Federal usage of both domestic and foreign geographic names.

As the Nation's principal conservation agency, the Department works to assure that nonrenewable resources are developed and used wisely, that park and recreational resources are conserved for the future, and that renewable resources make their full contribution to the progress, prosperity, and security of the United States—now and in the future.
