MEMORANDUM FOR THE RECORD

SUBJECT: HSC Interviews

Greg Rushford explains that he wants to talk to a variety of desk level analysts in order to determine whether there is a significant amount of knowledge available at the bottom which gets boiled away as it percolates upward through the heirarchy. He adds that if any chief fears that Rushford is gaining the wrong impression that Rushford will be happy to have a briefing from that chief. Rushford said he is quite aware that he will receive conflicting, fragmentary, or ill conceived reports. He plans to assemble what he has in a fair and responsible fashion.
