No. 236 of 10th October 1944.

Following for 7404 from 7408

A. I think we should try out procedure outlined in London's letter D.612 dated September 29th.

B. We should require packs of about 20 pounds, that is for instalments of 4 cardboard boxes of soap in each water /tight/ tin. 60 pound packs would be too unwieldy for us to handle through /grp.ind/ of transfer on land.

C. Meanwhile we drop the DINGHY idea.
