CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

August 1950

This Preliminary Gazetteer for Ethiopia, Eritrea and the Somalilands is issued in one volume as part of the National Intelligence Survey program and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. For features lying within adjacent areas, refer to appropriate Gazetteer.

This Gazetteer is issued on a preliminary basis to expedite availability of this work material for use in the preparation of the National Intelligence Surveys. It is contemplated that major additions and revisions will be published in supplemental volumes and that subsequently the material will be consolidated and published as a standard component of the National Intelligence Survey for Ethiopia, Eritrea and the Somalilands.

Distribution of this publication is made by the Central Intelligence Agency. This document carries a RESTRICTED classification but individual names thereof are unclassified.

FOREWORD

This gazetteer contains about 9,800 entries for places and features in Ethiopia (pp. 1-250), 2,100 for Eritrea (pp. 251-308), 2,800 for British Somaliland (pp. 309-80), 700 for French Somaliland (pp. 381-401), and 3,700 for Italian Somaliland (pp. 403-98). The scale of map coverage is generally about 1:1,000,000.

Several hundred Ethiopian names have been transliterated from Amharic script according to the Board's transliteration system for Amharic geographic names. The remaining Ethiopian names were taken from British and Italian sources. In the dependent areas, British, Italian, and French sources were relied upon, so far as feasible, in standardizing the names. Local dialects and variations in ways of transcribing local words are reflected in the names in the gazetteer. Some of the alternative spellings appear in the following glossary. Systematization was attempted only in the case of a few words about which apparently adequate information was available.

Glossary of generic terms

Besides English, Italian, and French generic terms, the gazetteer contains many generics from Amharic, Arabic, and other native languages. The latter are variously spelled on French, English, and Italian sources and cannot always be identified with assurance as to language. Hence, in the following list, generic terms are identified only by the area in which they occur, with various spellings of the same word separately listed. The following symbols are used to indicate areas: BS, British Somaliland; Er, Eritrea; Eth, Ethiopia; FS, French Somaliland; IS, Italian Somaliland. Each of the meanings given applies in the case of one or more of the standard names.

Generic term	Area	Definition
acqua	Er	well
alpe	Er	mountain
altipiano	Er	plateau, upland
altopiano	IS	plateau, upland
alture	Er	uplands
amba	Eth	mountain
ancoraggio	Er, IS	anchorage

vallata	IS	valley
valle	Er	valley
vallée	FS	valley
vulcano	Er	volcano
wābi	Eth	stream

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.--Standard names and cross-references from variant names appear in the first column. In some cases, two or more names are approved for a feature, and each is listed, with bracketed identification. In a few entries, part of a name is underlined; in such cases, the use of the nonunderlined part is optional. Names that include both a generic and a specific part are regularly listed under the specific part; thus Monte Abam is listed as Abam, Monte.

Designation.--Designations in the second column are sometimes abbreviated and represent groups of features, as follows:

ADMC	administrative center
ADMD	administrative division
ANCH	anchorage(s)
AREA	area, tribal area
BANK	bank(s), sandbank(s)
BAR	sand bar
BAY	bay, inlet
BCH	beach
CHAN	channel
CLIF	cliff(s), bluff, escarpment
CNVT	convent
CTRL	camel trail
DIST	district
DUNE	sand dune(s)
ESTY	estuary
FALL	waterfall, rapids
FORT	fort, fortress
FRST	forest
GRGE	gorge
GRVE	cemetery
HILL	hill(s), hilly area
HWAY	highway, motor route
ISL	island, islet
ISLS	islands
ISTH	isthmus
LAKE	lake(s), salt lake(s)
