CENTRAL INTELLIGENCE AGENCY

Washington, D.C.

July 1966

This Gazetteer is issued as a standard component of the National Intelligence Survey for Niger and lists official standard names approved by the United States Board on Geographic Names. These names supersede all previous decisions on geographic names in this area. This Gazetteer also lists the variants of official standard names for reference purposes. These variants are not approved as standard names.

This Gazetteer will be adequately maintained by published revision.

Distribution of this publication is made by the Central Intelligence Agency and is for official use only.

FOREWORD

This gazetteer contains about 14,700 entries for places and features in the Republic of Niger. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:500,000, with coverage of the southern part of the country at the scale of 1:200,000. Entries include the names of first- and second-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Through collaboration with the Institut Géographique National, the *Principes de Transcription des Toponymes Africains* (IGNF, Paris, July 1963) have been complied with, so far as practicable, in standardizing the names.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the word "see." Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Oued Tazos, the name of a wadi, is listed as Tazos, Oued.

The diacritical marks used in approved names of Niger are the acute (′), grave (`), and circumflex (ˆ) accents, the cedilla (¸) and the dieresis (¨). These marks are to be used whether the names are written in capital or lowercase letters. In addition, the apostrophe is used to indicate contraction in French name elements and to represent the consonant *'ayn* in Arabic and Berber words. The hyphen is used to connect French and Berber compound name elements.

In writing names of Niger in capital and lowercase letters, the Arabic articles *el, ech, ed, en, er, es, et, ez,* the Berber particles *i, ti, oua, oui, -n-, -m-, -en-,* and all French articles, prepositions, and conjunctions are written in lowercase except when in initial position.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Niger some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	administrative division (first-order, *département;* second-order, *arrondissement*)
AREA	area (tract of land identified by a name, but without apparent homogeneous character or established boundaries; may be identified and named for characteristics which no longer pertain to it)
BUTE	butte(s) (small, isolated, usually flat-topped hills with steep sides)
CMP	nomadic campsite
DPR	depression (lower area wholly or largely surrounded by higher land; ordinarily has interior drainage and does not conform to the valley of a single stream)
DSRT	desert
DUNE	dune(s) (hill or ridge of sand formed by the action of wind)

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100140009-4

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100140009-4

ERG	erg (desert area of shifting sand)
FLL	waterfall
FLT	salt flat (place of salt accumulation due to evaporation)
FORD	ford (place where a stream may be safely crossed without a bridge or boat)
FRST	forest
GRGE	gorge(s) (relatively narrow, steep-sided segment of a streamcourse)
HLL	hill (landform of moderate relief, moderate elevation, and small summit area)
HLLS	hills
ISL	island
LCTY	locality (minor area or place of unspecified or mixed character)
LK	lake
MESA	mesa (flat or nearly flat landform less extensive than a plateau and separated from lower surrounding land by abrupt slopes)
MRSH	marsh (wetland characterized by grasses or bush vegetation and few or no trees; usually seasonal)
MSSF	massif (elevated, generally mountainous block of the earth's crust)
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)
MTS	mountains
OAS	oasis (watered area in a desert, usually with cultivation dependent on irrigation or a shallow ground water table)
PASS	pass (way over or between dunes or hills); gap (low place in the relatively even crestline of a ridge or other elongated relief feature, apparently not used as a pass)
PCLI	independent political entity (republic)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
PLN	plain (landform of low relief, slope, and elevation)
PND	pond (small standing waterbody)
PPL	populated place (city, town, village, settlement; may include some seasonal and shifting agricultural settlements and some single habitations)
PRK	international park (in Niger, Dahomey, and Upper Volta)
RDGE	ridge (elongated, relatively narrow relief feature with a more or less continuous crest)
REG	reg (desert area with a surface of loose stones or pebbles)
RESF	forest reserve (area under public management and controlled use, generally with sparse tree or bush vegetation)
RESP	palm tree reserve
RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
RKSL	rocks on land
RPDS	rapids
RUIN	ruin
SCRP	escarpment (more or less continuous line of cliffs or steep slopes facing in one direction, caused by differential erosion or faulting or both)
SILL	sill (submerged ridge of shallow depth separating two parts of a waterbody)
SPNG	spring
STM	stream (river or other running fresh waterbody, perennial in all or a part of its course)
STMI	intermittent stream (stream, no part of which is indicated as perennial)
TRGD	interdune trough (elongated corridor between parallel dunes)
TREE	tree (used as a desert landmark)
WAD	wadi (watercourse or drainageway that carries only occasional flows of water)
WLL	well (dug or drilled source of water)

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100140009-4

APPROVED FOR RELEASE: 2007/02/09: CIA-RDP01-00707R000100140009-4

WLLS wells

WTRH waterhole (place, usually in the bed of a watercourse, where water stands or can be obtained by shallow digging during the dry season)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, and near the centers or midpoints of other features.

Area number.—The number in the fifth column indicates the *département* of Niger in which the place or feature is located, as listed below:

54200	Niger (general)	54204	Maradi
54201	Niamey	54205	Zinder
54202	Dosso	54206	Diffa
54203	Tahoua	54207	Agadez

The general number (54200) is used for international features and for features in two or more *départements*.

Locational reference.—A number other than 00 in the last column indicates a map on which the feature may be located by its standard name or a recognizable variant of its standard name, as follows:

01 *Carte de l'Afrique de l'Ouest au 1:200,000* or *Carte de l'A.O.F. au 200,000e* or *Afrique Occidentale Française – Carte Régulière,* Service Géographique de l'A.O.F. or Institut Géographique National – Annexe de Dakar or Service Géographique à Dakar, various dates; scale 1:200,000.

02 *Carte de Colonies de l'A.O.F.* or *Carte de Reconnaissance de l'A.O.F.* or *Croquis de Reconnaissance de Régions Sahariennes* or *Afrique Occidentale Française,* Service Géographique de l'A.O.F. or Service Géographique de l'A.O.F. à Dakar, scale 1:500,000; various dates.

03 *Carte Aéronautique du Monde au 1:1,000,000, O.A.C.I.,* Institut Géographique National, various dates.

04 *République du Niger,* Institut Géographique National, 1962; scale 1:2,500,000.

The code 00 is used for cross-references and for standard names found only on references other than those listed above.

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. The parenthetical symbols A, B, Fr, F, H, S, and T designate Arabic, Berber, French, Fula, Hausa, Songai, and Teda words, respectively.

adrar	(B)	hill(s), mountain(s), mesa
'aguelt	(A)	well
ahzar	(B)	wadi
'aïn	(A)	well
ânou	(B)	well
arrondissement	(Fr)	second-order administrative division
assa, aza	(B)	wadi
bangou, banguia	(S)	waterhole
bérégué	(T)	depression
bézzé	(T)	plateau
bir	(A)	well
bosquet	(Fr)	grove
boula, boulèl	(F)	well
chutes	(Fr)	waterfall
col	(Fr)	pass
colline	(Fr)	hill
cuvette	(Fr)	depression
dallol	(F)	wadi
département	(Fr)	first-order administrative division
désert	(Fr)	desert
djebel	(A)	hill, mountain
doutchi	(H)	hill, mesa, rocks on land

téssa	(B)	wadi, depression
tondi, tondo	(S)	hill, dune, mesa
toudou, toudoun	(H)	hill
vallée	(Fr)	wadi
yégué, yigué	(T)	well

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D. C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.
