OFFICIAL STANDARD NAMES

for

Mongolia

approved by the

UNITED STATES BOARD ON GEOGRAPHIC NAMES

This Gazetteer is issued under the NIS maintenance program. It supersedes the one dated November 1953, copies of which should be destroyed.

Prepared in the
Geographic Names Division, U.S. Army Topographic Command
Coordinated and published by the Central Intelligence Agency
Washington, D.C. 20505, November 1970

FOREWORD

This gazetteer contains about 13,000 entries for places and features in Mongolia. The entries include standard names approved by the Board on Geographic Names and unapproved variant names, the latter cross-referenced to the standard names. *Users of the gazetteer should always refer to main entries for approved names.*

The basic name coverage corresponds to that of maps at the scale of 1:1,500,000. Entries include the names of first-order administrative divisions, populated places of all sizes, various other cultural entities, and a variety of physical features.

Interpretation of entries

It has been necessary to express in code numbers and letters some of the information in the gazetteer in order to accommodate it to the machine method of tabulation.

Name.—Approved standard names and unapproved variant names appear in the first column. The variant names are always cross-referenced to the standard names by use of the "see". Where part of a name is underlined, the use of the part not underlined is optional. Where two or more names are approved for a feature, each is identified in parentheses and any or all may be used. Names containing generic elements preceding the specific term (except names of populated places) are alphabetized by the specific part; thus Ozero Achitu-nur, a Russian variant name of a lake, is listed as Achitu-nur, Ozero see Achit Nuur. (It should be noted that in correct Mongolian place name usage the Mongolian specific term invariably precedes the generic term.)

As far as possible, Mongolian names in the gazetteer have been romanized from Mongolian Cyrillic script according to the transliteration system used jointly by the Board on Geographic Names and the Permanent Committee on Geographical Names for British Official Use (the BGN/PCGN 1964 System), which follows on pages iv-v. Where it was not possible to derive names from Mongolian Cyrillic script, they have been given as spelled in the BGN 1945 system and are marked with an asterisk (*) preceding the designation.

The diacritical marks used in approved names in Mongolia are the dieresis (¨) and the breve (˘). These marks are used in both uppercase and lowercase print.

Most names in the 1964 system can be found on *Bügd Nayramdah Mongol Ard Uls* (Mongolian Peoples Republic), Committee of Sciences of the Mongolian Peoples Republic, 1959; scale 1:1,500,000. Names in the 1945 system may be found in their approved form or by recognizable variant forms on *World* (*Asia*), AMS 1301 (includes the older AMS series 5301), Army Map Service (now U.S. Army Topographic Command), various dates; scale 1:1,000,000.

Designation.—The second column contains designations or abbreviations of designations, as listed below. Since practically all geographic terms have varied meanings, the senses in which the designator terms are used and the range of features to which they are applied *in this gazetteer* are stated in the list to reduce ambiguity. The distinctions that can be made in a given gazetteer will vary with the quality of the maps of the area and with the nature of the entities that are named. In Mongolia some of the features do not fit precisely into the categories used to designate them and others could be designated in two or more ways.

ADMD	first-order administrative division (*aymag; hot*)
AREA	area (tract of land identified by a name, but without homogeneous character or established boundaries; may be identified and named for characteristics which no longer pertain to it)
BSN	basin (more or less saucer-shaped region delimited by a drainage system, physical relief, and/or geologic structure)
CLF	cliff (high, steep rock face)
DPR	depression (lower area wholly or largely surrounded by higher land; ordinarily has interior drainage and does not conform to the valley of a single stream)
DSRT	desert
FRST	forest

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200020003-2

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200020003-2

GLCR	glacier (tongue of ice descending a valley or other slope)
HILL	hill (landform of moderate relief, moderate elevation, and small summit area)
ISL	island
LK	lake (includes intermittent and salt lakes)
LKS	lakes
MRSH	marsh
MT	mountain (landform of conspicuous relief, moderate to high elevation, and small summit area)
MTS	mountains; mountain range(s)
OBO	obo (hill, cairn, boundary marker; has religious significance)
PASS	pass (way over or between mountains or other high land)
PCLU	unrecognized political entity (area administered as an independent political entity by a government not recognized as sovereign by the United States)
PK	peak (separately named summit on a more extensive elevation)
PLAT	plateau (extensive elevated area of flat to rolling surface; may exhibit considerable local relief due to dissection or the presence of hills or mountains rising above the general surface level)
PLN	plain (landform of low relief, slope, and elevation)
PND	pond (small standing waterbody)
PPL	populated place (city, town, village, settlement; includes seasonal and nomadic habitations and present and former monasteries and other religious establishments)
PPLQ	abandoned settlement
RGN	region (large area recognized as an entity by reason of the unity of its history, people, landscape, or other condition or a combination of conditions)
RUIN	ruin(s) (structure in a state of ruin, but not necessarily of great antiquity or archaeological interest)
SAND	sand area (tract of sand not in the form of dunes or a beach)
SPA	spa (health resort, usually associated with mineral or thermal springs)
SPNG	springs(s)
STEP	steppe (treeless and usually waterless comparatively level surface, covered with grass)
STM	stream (includes intermittent as well as perennial streams)
VAL	valley (area drained by a stream, or a named segment of such an area)
WALL	wall
WLL	well (dug or drilled source of water)

Latitude and longitude.—The third and fourth columns indicate geographic coordinates, with longitude based on Greenwich. Coordinates were generally read to the nearest minute and are for finding purposes only.

Coordinates were read at the map symbol for populated places and other entities occupying limited sites, at the mouths or lower ends of streams, at the summits of mountains and hills, and near the centers or midpoints of other features. The positioning of features often differs widely on Mongolian maps, and the coordinates for a given place may vary with the source.

Area number.—The number in the fifth column indicates the first-order administrative division (*aymag; hot*) of Mongolia in which the place or feature is located, as listed below:

44800 Mongolia (general)
44801 Bayan-Ölgiy Aymag
44802 Uvs Aymag
44803 Dzavhan Aymag
44804 Hövsgöl Aymag
44805 Arhangay Aymag
44806 Bulgan Aymag
44807 Selenge Aymag
44808 Töv Aymag
44809 Ulaanbaatar Hot
44810 Hentiy Aymag
44811 Dornod Aymag
44812 Hovd Aymag
44813 Govĭ-Altay Aymag
44814 Bayanhongor Aymag
44815 Övörhangay Aymag
44816 Dundgovĭ Aymag
44817 Dornogovĭ Aymag
44818 Sühbaatar Aymag
44819 Ömnögovĭ Aymag
44820 Darhan Hot

The general number (44800) is used for international features and for features in two or more first-order administrative divisions.

APPROVED FOR RELEASE: 2007/02/20: CIA-RDP01-00707R000200020003-2

Glossary of generic terms

The following terms occur as the generic parts of standard names listed in the gazetteer. The meanings given include those supported by application to features named in the gazetteer, whether or not these meanings are given in dictionaries. The term *khrebet*, below, is Russian; the term *su* is Turkic; the remaining terms are Mongolian.

altay ..... mountain range
aral ..... island
aymag ..... first-order administrative division
bulag ..... spring
chuluu ..... mountain
dabaa ..... pass, mountain, mountain range
dalay ..... lake
elese, els ..... sand area
gadzar ..... region
godzogor ..... mountain
gol ..... stream, spring, lake
gevĭ ..... depression
hada ..... mountain
hira ..... mountain(s)
honhor ..... depression
hooloy ..... depression
hot ..... first-order administrative division; municipality
hotgor ..... depression
hötöl ..... pass
hudag ..... well
khrebet ..... mountain range
mörön ..... stream
muj ..... region
nars ..... forest
nuruu ..... mountain(s), mountain range
nuur ..... lake(s)
oboo ..... obo
öndör ..... mountain
öndörlög ..... plateau
orgil ..... peak
oroy ..... mountain
rashaan ..... springs, spa
saridag ..... mountain range
shanda ..... well, spring
shil ..... plateau, mountains
su ..... stream
tal ..... steppe, plain
tald ..... plain
tayga ..... mountain range
teeg ..... mountain
tologoy ..... mountain, hill
toyrim ..... lake
us, usa ..... well, spring, lake
uul, uula ..... mountain, mountain range
uuls ..... mountains

Reporting of errors

It is requested that all who use this gazetteer aid in its correction for future printings by reporting errors and name changes to the Board on Geographic Names, Department of the Interior, Washington, D.C. 20240. A statement of the source of the correct information will be helpful.

Geographic names or their spellings do not necessarily reflect recognition of the political status of an area by the United States Government.

TRANSLITERATION SYSTEM FOR MONGOLIAN CYRILLIC
BGN/PCGN 1964 System

This system was originated by the PCGN in 1957 and adopted as a BGN/PCGN system in 1964. It is intended for use in the romanization of geographic names in the Mongolian Peoples Republic but not to romanize Mongolian names in adjacent parts of China and the U.S.S.R.

Prior to June 1964 the BGN used a system of transcription of Mongolian adopted in 1945 and based on the sounds of the *Halha* dialect, the principal dialect used in the Mongolian Peoples Republic. This system will continue to be used for names neither available in official Mongolian sources written in the Mongolian Cyrillic alphabet nor capable of reconstruction into that alphabet.

о	o	ю	yu or yü 7/
ө	ö	я	ya
п	p 4/		

1. Occurs initially and after л , м , and б .
2. Occurs medially in Mongolian words and initially in foreign words.
3. Occurs only as the second element of diphthongs.
4. Occurs in foreign words only.
5. Occurs only in Russian words.
6. Occurs only in suffixes to words containing back vowels (a, o, and u).
7. In monosyllables yu or yü depending on pronunciation; in polysyllables yu when followed by a, o, or u, but yü when followed by i, e, ö, or ü.
