St. Petersburg, Florida

THE INTELLIGENCE SUMMIT

BI-PARTISAN NON-PROFIT
EDUCATIONAL FORUM

Welcome to THE INTELLIGENCE SUMMIT™

The Intelligence Summit™ is a bi-partisan, non-profit, neutral forum that uses private, charitable funds to bring together intelligence agencies of the free world and the emerging democracies. The purpose of The Summit is to provide an opportunity for members of the international intelligence community to learn from each other and to foster cooperation. We are supported in our efforts by a most distinguished Advisory Council.

Some of the outstanding presenters at The Summit will include Lt. Gen. Thomas McInerney and Maj. Gen. Paul Vallely, Comander Richard Marcinko, former KGB Lt. Col. Konstantin Preobrazhensky, leading Israeli combat officers, and other experts on Iran, North Korea, China, and the rapidly growing bio-terror threat.

This year we are also partnering with the Secular Islam Summit to concurrently bring their courageous voices from throughout the world to speak on the burning issues of the day. (Please visit our website at www.intelligencesummit.org for more detailed information).

The Summit is considered by many to be the most prestigious world conference on international studies, intelligence policy, terrorism, and homeland security. Last year, it was attended by representatives from over 36 foreign nations.

WHO SHOULD ATTEND

The audience is predominantly middle and senior level intelligence officers and business CEOs. There is also a strong core of senior academic and media leaders who wish to keep abreast of the latest in intelligence technology, as well as risk assessment. Experts in regional/international studies, as well as law enforcement and terrorism specialists should find The Summit extremely valuable. We also wish to reach out to private citizens who want to learn more about the national security issues facing this great nation.

OUR PROGRAM

The program will include the following tracks:

Secular Islam Summit

The Secular Islam Summit will be held concurrently and in association with The Intelligence Summit. It will feature the courageous voices of those who stand against radical Islam and speak against the violence of Islamist jihad. They include Whalid Phares, Shaker al-Nabulsi, Irshad Manji, Amir Taheri, Magdi Allam, Ibn Warraq, Fatemolla, Afshin Ellian, Wajeha Al-Huwaider, Banafsheh Zand-Bonazzi, and Tawfik Hamid

International Session

The lead session will, of course, be international area studies, where the presenters will be members of the national intelligence services involved. Over a three-day period, nation after nation will describe the world and its problems as they see it from their own country. This is a must session for threat analysts and regional experts, and embassy spokespersons who have a primary intelligence responsibility.

Business / Technology Session

Business leaders from around the world will meet to share their lessons learned and experiences in the war against terror. CEO's, security officers, and IT staff will be taught by the most experienced faculty with the latest practical information on how to defend your business from attack, learn the latest developments in competitive intelligence, and see the most advanced technological advances in the world.

Homeland Security / Counter-Terrorism Session

This is the session where the military leaders of the free nations meet to listen to and learn from each other. If there is a global war on terrorism, how are our partners around the planet fighting it? Where are we winning? What tactics are losing? Which nation's generals are doing better and why? Is Al Qaeda regrouping or falling

Some of our allies have very different approaches to domestic security. What can we learn from Singapore, Taiwan, the United Kingdom and Israel? This is a must session for law enforcement and first responders from the national, state and local levels of every free nation around the world.

Specialist Sessions

Every specialty and subgroup in the entire world of intelligence, counter intelligence, counter-terrorism and law enforcement will be represented in various classes at The Summit. Whether members of the media, the academic sector, or the corporate community, each will have an opportunity to meet their peers in engaging discussion.

Speakers include:

Dr. Richard Benkin - Prof. Louis Rene Beres - Col. Bill Cowan - Dr. Andrew M. Colarik - Sean Costigan
Col. Gordon Cucullu - Ilana Freedman - Nonie Darwish - Drs. Jill Dekker - Dr. Rachel Ehrenfeld - Dave Gaubatz
Jerry Gordon - Col. Jonathan Halevi - Michael Hess - Joe Kaufman - Aaron Klein - Clare Lopez - Laura Mansfield
Cdr. Richard Marcinko - Ryan Mauro - Lt. Gen. Thomas McInerney - Richard Minitier - Bob Newman
Dr. William Radasky - Klaus Schmidt - Avi Shachar - Wayne Simmons - Khalsa Hari Singh - Maj. Gen. Paul E. Vallely

Exhibition Hall

For three consecutive days, the cutting edge technology of the world will be on display. Hardware or software, counter-terrorism or intelligence, from UAVs to WMD detection, these panels and presenters offer the best that is being built. Special attention will be given to requests for future technology from the intelligence community.

\$5,000	Patron	VIP reception, acknowledgements in website and catalogue
\$1,000	Supporter	VIP reception, catalogue acknowledgements

OUR HOSTS

The Intelligence Summit is a fully authorized program of IHEC. Founded in 1995, IHEC is a nationally recognized, publicly supported charity for educational purposes. IHEC contributions are tax deductible under section 501(c)(3) of the IRS code. In addition to the Federal Tax deduction for charitable contributions, the State of Florida gives an additional 50% cash rebate to qualified IHEC donors.

Originally incorporated as the International Holocaust Education Center, after 9/11 IHEC rapidly expanded its educational mission from fighting racism to fighting terrorism, and is now known as the Intelligence and Homeland Security Education Center.

Because it is a private charity, IHEC can respond more rapidly and flexibly than most government agencies and has funded some of the most innovative programs in the war against terrorism. In 2002, IHEC funded a national research program using private investigators to obtain information on the financing of domestic terrorists. IHEC's educational research has aided in the exposure and subsequent indictment of Professor Sami al-Arian, and other sensitive investigations, which are still ongoing.

In 2004-2005, IHEC funded many of the program expenses, including most of the international speakers' travel, for INTELCON, the National Intelligence Convention and Exposition in the Washington DC area.

*The Intelligence Summit is proud to be
sponsored in part by:*

Thank you for taking the time to read through this brochure.

Respectfully, John Loftus, President Dr. Robert Katz, Executive Director
