Mexico - Urban Growth Rate v. Total Population Growth Rate

The chart illustrates the comparison between the Urban Growth Rate and the Total Population Growth Rate in Mexico from 2000-2005 to 2025-2030.

- **Urban Growth Rate** (blue line) shows an initial increase from 2000-2005, peaking around 2005-2010, and then a steady decline until 2025-2030.
- **Total Population Growth Rate** (orange line) starts lower and rises more significantly from 2000-2005 to peak around 2005-2010, then it also shows a decline but at a slower rate compared to the Urban Growth Rate.
