

~~TOP SECRET~~

APPROVED FOR  
RELEASE  
Historical Collections  
Division  
HR 70-14  
Date: 2 May 2012

Official Diary

Saturday, 15 September 1951

HR70-14

Discussed with Mr. Dulles the procedures to be followed in connection with NSC papers. He approved the suggestion that [redacted] and [redacted] staff this activity and the procedures recommended.

Also discussed with Mr. Dulles the recommended amendment in PRC procedures which he approved.

With respect to [redacted] of O/SI, Mr. Dulles approved promotion to GS-16, but stated that SI should be cautioned not to make a long-term commitment since it might be possible to find a better qualified person for that position. I so advised Ralph Clark of O/SI.

[redacted]

[redacted]

Discussed briefly with Mr. Borel of O/NE the implementation of the NSC Directive calling for estimates designed to increase National security, which is presently being coordinated personally by General Smith. As a result of such conversation, the question should be raised next week of whether the DCI wishes to delegate supervision over this coordination to anyone else during his absence. This can be done appropriately in connection with a paper on this matter which Borel will bring in on Monday.
