HR70-14

DAILY STAFF MEETING

Wednesday, 17 October 1951

Mr. Reber noted that:

- a. He was introducing General Davison to the various personnel people in the IAC Agencies with the hope that some of our personnel problems could be resolved on the highest level "personnel-wise".
- b. He had discussed with Mr. Babbitt the timing as to when FCDA should be brought into the paper the DCI was coordinating on "adequate basis for planning for prevention of attack against the U.S.". Mr. Larocque noted that FCDA has a representative on the NSC Senior Staff and would, in all probability, be "brought in" through this individual.

Colonel Hansen briefly discussed [redacted] and stated that recommendations were being submitted to DCI this date.

Mr. Harvey noted that [redacted] had reported for assignment
