Director's Meeting

Friday, 4 January 1952

HR70-14

PRESENT: General Smith, Messrs. Dulles, Wolf, Wisner, Hedden, Becker.

2. Mr. Dulles raised the question of whether Vishinsky's proposal that the Security Council study the Korean negotiations was a matter for consideration by the PSB. The DCI indicated that this suggestion should be passed on to the PSB and also approved Mr. Wisner's suggestion that it be brought to the attention of the POGB. It might be possible to use this suggestion as a means of driving a wedge between the Russians and the Chinese.

3. Mr. Dulles discussed briefly the situation in Southeast Asia and indicated his feeling which was shared by Mr. Becker that existing policy is inadequate as respects the threat to Burma.

4. Mr. Wolf reported that a man who had been in the unclassified training pool was missing and his mother is now in touch with some Congressman. He merely wished the DCI to be advised.

5. In connection with the foregoing item, there was a brief discussion of whether people in the unclassified pool were given enough work and whether such work was supervised. It was indicated that this matter was in the control of the Director for Training. The DCI instructed Mr. Hedden to look into this situation.

8. Mr. Wisner reported that he had finished his discussions with his operating offices respecting directives implementing the next stage of the integration program and he desired to discuss this matter with the DCI, who indicated he would be glad to do so.
