DAILY STAFF MEETING

Wednesday, 6 February 1952

PRESENT: Messrs. Earman, Long, Harvey, Davidson, Col. Hansen, [redacted]

[redacted] HR70-14

Reported that the Executive Order on port security which had been prepared for the President's signature had not been signed but had been referred by the President to the NSC for further discussion. The Executive Order involves the complete denial of principal US ports to Soviet and Satellite shipping.

Col. Hansen:

b. Reported that the local representative of Warner Brothers pictures had sought CIA technical guidance in the production of a contemporary spy picture. He was told that we would not only be unable to afford such guidance but that we would take every step to discourage the production of a picture which purported to represent current US espionage. Mr. Warners' brother-in-law is now on his way to Europe to discuss possible scripts and Col. Hansen raised the question whether he might be told to contact a CIA representative in the field. This was declared to be impossible because all such personnel are covert.

b. Noted also that Mr. O. K. Armstrong (of San Francisco map fame) had informed [redacted] of PSB that he sought an auditorium for a meeting, on or about 22 February, which would examine and discuss US PW and guerrilla warfare plans and activities. This had been referred by [redacted] to DD/A.
