Friday, 29 February 1952

PRESENT: General Smith, Messrs. Dulles, Wisner, Wolf, Becker, Hedden, Long

Mr. Dulles:

HR70-14

He said that Dr. Allen had indicated to him that there is no definite commitment to Craig respecting a teaching position at the end of his service with PSB. The Director said that he would talk to Tracy Barnes about the proposed transfer inasmuch as there were certain things which PSB should know before taking on Craig.

b. Indicated his desire to talk with the Director and [redacted] with respect to the latter's assignment.

Mr. Wolf:

Strongly commended the dry-run budget presentation and credited Mr. Becker and Col. Hansen for its excellence. He noted that the biggest job had now been done and that material is organized to allow easy alteration as the operations of the Agency develop or change.

Mr. Wisner:

a. Presented a rough draft analysis of the Gray report together with his conclusions: (1) that certain portions of the report, rewritten, could usefully be published and (2) that the President might well use some of it as a "platform" from which to discuss the cold war. *Final analysis has been given to Dcl.*
