#### PREFACE

This report is one in a series on Soviet Ground Force and logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center IPIC (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

A probable barracks area located (Figure 1) in west-central Kharkov is possibly associated with Kharkov Tank OCS (AL-5) and Kharkov Army Barracks West (AL-6), both of which are located immediately west (Figures 2 and 3).

The probable barracks area covers approximately 15 acres and contains one multistory administration building, 4 multistory probable

barracks, 5 general storage buildings, one vehicle shed, and 5 support buildings.

The installation was covered by TALENT photography in February 1960, and by 7 KEYHOLE missions between April 1962 and August 1964. No changes were observed. The installation appears to be active on all coverage.

DESCRIPTION OF INSTALLATION

Road Service

The installation is served by the streets of Kharkov and has access to all roads leading from Kharkov.

Administrative and Troop Housing Area

Area D contains one multistory administration building, 4 multistory probable barracks, and 2 support buildings.

General Storage Area

Area E contains 5 general storage buildings.

POL Storage Areas

Four POL storage areas are located within a 10 nautical-mile (nm) radius of the probable

barracks area: Two medium POL tanks are located 5.5 kilometers (km) north at 50-02N 036-11E; 11 medium POL tanks are located 3.5 km north at 50-01N 036-11E; 11 medium vertical POL tanks and 8 small horizontal POL tanks are located 5 km east-southeast at 49-48N 036-16E; and 17 large and 14 medium POL tanks are located 15 km east at 49-48N 036-29E.

Equipment Storage/Maintenance Area

Area J contains one 150- by 30-foot L-shaped vehicle shed with a 30- by 30-foot wing, and 3 support buildings. Vehicles were observed in the area on TALENT photography.
