PREFACE

This report is one in a series on Soviet Ground Force and Logistic installations being prepared for a DIA/CIA Panel. The series is being coordinated, published and disseminated by NPIC. The photographic analysis is being performed by the NPIC Photographic Analysis Group, the CIA Photographic Intelligence Division (NPIC), and the Production Center 1P1a (DIA). The photographic analysis for this particular report was performed by the NPIC Photographic Analysis Group.

In the interest of uniformity, the titles and letter designators for the facilities observed at these installations are identical with those appearing in the project requirement. When a specific facility is not observed both its title and letter designator are omitted in the report.

Titles and letter designators for the various facilities are as follows: (A) railroad service, (B) road service, (C) landing strips, (D) administrative and troop housing areas, (E) storage areas, (F) ammunition storage areas, (G) POL storage areas, (H) other buildings and facilities, (J) equipment storage/maintenance areas, (K) athletic fields, (L) small-arms firing ranges, (M) driver training areas, (N) tank/assault gun firing ranges, (P) flat trajectory firing ranges, (Q) artillery emplacements (batteries), (R) infantry or combined arms field training area or courses, (S) special training facilities, (T) unidentified facilities or tracking activity.

SUMMARY

Vladimir Army Barracks and Training Center is located in the western section of Vladimir (Figure 1). Associated driver-training courses and a vehicle park are 7 kilometers (km) west of the barracks area and an associated ammunition storage area is 5 km west-southwest of the barracks.

The barracks area covers approximately 336 acres and contains 3 administration/classroom buildings, 6 administration buildings, 18 barracks, 4 barracks/quarters, 28 officers/dependents quarters, 63 storage buildings, 96 support buildings, 1 vehicle maintenance building, 4 vehicle sheds, 2 athletic fields, a possible prison with 1 prison barracks, 2 storage buildings, and 3 support buildings (Figures 2 and 3).

The driver-training area, probably associ-

ated with the barracks, contains 4 tracked-vehicle driver-training courses, 1 barracks/administration building, 1 storage building, 5 support buildings, 1 vehicle maintenance building, and 4 vehicle sheds.

The double-secured ammunition storage area contains 7 ammunition storage buildings and 2 support buildings.

This installation was covered by July 1956 TALENT photography and 10 KEYHOLE missions between August 1960 and October 1964. The only significant change in facilities was the removal of 2 storage buildings from the barracks area between September 1962 and September 1963. A high level of activity was sustained on all coverage.

DESCRIPTION OF INSTALLATION

Road Service

All-weather roads provide access to Vladimir.
