1 June 1955

MEMORANDUM FOR: Chief, RGM/RE

SUBJECT : Project ABCHAMP Productivity Annex

1. In compliance with Memorandum of 13 May 1955 from Acting Chief, Plans/FI, the following information is hereby submitted as an annex to the request for renewal of above project.
2.
  - a. Number of positive intelligence reports received via above project during FY 1955: 45.
  - b. Number of CE reports received: see below, under "e."
  - c. Number of reports used in disseminations: 14.
  - d. Actual number of disseminations: 11.
  - e. Analysis of value of CE and/or operational reports: A CE breakdown as per "c" above is not possible in this case because of the suspected RIS control of several sources of these reports. Hence much of the output is of potential CE interest. This, however, does not always detract from the informational value of these reports as many of them have been corroborated by other sources.
  - f. Analysis of undissemintated positive reports: some of the above reports were not disseminated because: a) of their CE implications, and b) they were found to be less detailed than other available reports.
  - g. List of ID and IG numbers has already been submitted to RGM/RE as per instructions. None of the reports can be regarded as having completely satisfied any standing requirements.
