W/T Message dated 30.5.53 (received 2.6.53)

"In several places in KURZEME, at about the middle of May, soldiers appeared suddenly. Forests, houses and roads are being checked. Rumours are circulating amongst the local inhabitants that they (the soldiers) are looking for parachutists. Shooting has been heard."

W/T Message dated 11.6.53 (received 22.6.53)

"Here, in the beginning of May, we again noticed Russian activities. According to information, now confirmed, at the beginning May Russian soldiers combed the forests and checked all roads in the VENTSPILS, KULDIGA and SILDUS areas. According to information from local inhabitants, they were looking for parachutists. So far I have no information on any success in this action.

"Now everything has passed over. Please let us know if anything is known to you as to what sort of an aircraft it could have been."
