SR/DOB/59/1496

6 April 1959

MEMORANDUM FOR: SR/COP/Plans

SUBJECT : Wartime Intelligence Collection Requirements

1. In reference to your memorandum dated 3 April 1959, same subject, with attachments, the following comments are offered:

#75

a. The forms or formats do make sense.

b. The requirements are specific.

2. Although the specific questions asked in para 1a and b of your memorandum are answered above in the affirmative, it is felt that the formats and requirements can be improved by greater uniformity among the commands.

3. When we get around to studying their requirements from the point of view of deciding whether we have the capabilities to fulfill them, there should be better mutual understanding if each commander would levy his requirements as follows:

a. Designate each target by command and a numeral.

b. Locate center of target area by coordinates.

c. Denote the information or function required by a Roman numeral category. These categories could be determined by reference to a pamphlet which would list all of the various requirements now imposed by the various commanders but in uniform terminology.
