MEMORANDUM FOR THE RECORD

SUBJECT: Future direction of DOB and Project WUDEPOT

1. This paper is prepared on the assumption that the present JCS requirements eventually will be invalidated.

2. Until this action is accomplished, DOB will retain all existing assets and we envisage by the end of FY '67 developing a reserve corps of 50 additional general purpose cold war contingency agents with emphasis on language qualifications (French, Spanish & Portuguese).

3. Future training and retraining will be scheduled as follows:

a. Present assets who have volunteered for general duty status in cold war contingencies

- 1) 20 agents for AF/SOD use in the Congo, estimated 4 to 6 weeks period - FY '65
- 2) Three two week call-ups of WUDEPOT graduates (one in FY '65, two in FY '66)
- 3) One two week call-up for ARLEAP assets - FY '65

b. Additional 50 agents for all purpose

- 1) One 15-20 man class FY '66
- 2) Two 15-20 man classes FY '67
- 3) Two week refresher (1) above - summer calendar year 1967

4. Given the State Department position prohibiting the utilization of American agents in hostile action situations where they may face risk of capture, these agents will be trained primarily in support roles. Although parachute jump training may be eliminated, general air operations training

will be continued.

5. Subsequent recruitment and training will be limited to that number necessary to take care of attrition from the reserve to maintain a level of 50. Another determining factor would be the frequency, number of agents, and duration of contingency situations making use of this pool.

6. By the end of calendar year '67 we would have reached a total of 50 new contingency assets, at which time the future role of DOB would be re-examined.

7. Based on the foregoing, it is considered that a T/O as outlined below is the minimum necessary to perform all needed functions. Although basic titles have been listed, most of the case officer category would perform combined instructor, recruiter, & project officer roles.
