MEMORANDUM FOR: PP/C/OPS

SUBJECT : Project AEFLAG

1. It is our understanding that the provisions for Latvian broadcasts over Spanish radio as explained in Project AEFLAG have, in fact, been in operation for the past year. It is hoped that under the terms of AEFLAG these broadcasts will be even more successful.

2. We would like to call attention, however, to paragraph 11-C of the attached project which refers to the "effectiveness" of Radio Nacional de Espagna. We have found that little evidence exists dated after 1954 to substantiate claims of either the program or technical effectiveness of Radio Nacional. We are now studying by what means both the program and technical effectiveness of Radio Nacional might be improved. However, we believe that the lack of effectiveness data at present should not influence the continuance of Latvian broadcasts as proposed in AEFLAG.
