Remarks:

1. This report is eff as of C.O.B. 26 April 1953. The total cumulative debits column includes unliquidated obligations and expenses for both hqs and field. Analysis of accounts indicates that field expenditures and obligations are not being clearly and adequately reported.
2. Subsidy and proprietary projects usually require a current and approved Administrative plan in addition to project authorizations for allotments.
3. Administrative overhead allotments are not included in this operational report.
4. German Mission report obligations for March were not received in time to include in this report.
