Comments on Tentative REDSKIN Operation

ACTION REQUIRED - REFERENCES

FYI

EGFA-32967, 13 January 1961

1. Subject of Reference is of interest as a REDSKIN traveler, but it seems premature to consider requirements and internal contacts until and unless he decides to make the trip and begins making arrangements. When this has been resolved and if AECASSOWARY/29's assessment of Subject continues to be positive, we shall be happy to consider with the Field the details of a mission.

2. At this point we can say that travel by automobile is generally preferred over train for FI collection. When Subject's plans are more firm, please let us know which means of travel he intends to use and how flexible his decision is.

3. In all probability we should want Subject to make some previously planned internal contacts or even recontacts. AECASSOWARY/29 should keep this in mind when assessing Subject.

4. The timing of Subject's trip would also be of considerable importance. Again, please indicate to us soonest the dates and duration of his intended trip and his exact itinerary. The degree of flexibility should also be considered here.

5. We regret that Headquarters is unable to furnish materials on abstract modern art in the USSR. To the best of our knowledge, it is decidedly unpopular with the regime and publicly unknown, although individual artists are probably experimenting on their own. We shall check this out further if the operation is realized.
