In early December 1965 [] was able to borrow a 35 mm film of the movie TIN' NE ZABUTYKH PREDKIV (SHADOWS OF FORGOTTEN ANCESTORS) (See comments on the movie attached) from the Soviet Ukrainian Mission at the United Nations. The film was loaned to [] on the condition that she have a 16mm copy of the film made for TRONKO. I checked with Graphics Registry [] to see if they would be willing to make a copy of the film for this purpose and at the same time make a copy for the Agency. They agreed and A/29 was asked to deliver the 35mm film to the Army laboratories in New York where it was to be processed. The film (the original Soviet film and 2 copies - 4 reels each - was delivered to AECASSOWARY/29 on 18 January. A/4 and A/29 came to Washington by car to pick up the film. In the meantime, it was decided that since we didn't want the Soviets to think that [] was not concerned about the sums of money she spent, she would be instructed to tell them that after checking with various commercial labs in New York she found the cost of reproducing the film was so high (about \$600.00) that she could not afford to make a copy for them unless they were willing to pay for at least half the cost. The AECASSOWARIES will hold the film if the Soviets do not agree to pay half the cost. The other copy is for use by the AECASSOWARIES and [] for a period of one year. A receipt was signed by me for the film which is to be returned to Graphis Registry by January 1967. A/2 has agreed to this arrangement and A/29 signed for the film as per the attached.
