MEMORANDUM FOR THE RECORD

SUBJECT: Telephone Conversation with Donald MacDonald,  
Department of State, re AERODYNAMIC 303 Paper,  
17 November 1967

I called Frank Chapin regarding Donald MacDonald's memo on the AERODYNAMIC 303 paper, who agreed it would be nice to avoid rewriting the 303 paper. I then called MacDonald who said he didn't care how it was done, but suggested that Mr. Murphy present the points raised in his memorandum verbally to the 303 Committee and circulate an aide memoir covering the points. MacDonald would like an advance copy of the aide memoir, so we shall have one drafted by Monday for Mr. Murphy to see and forward it immediately thereafter. The main point MacDonald made was that State Department is nervous about our re-incorporating Prolog (or starting any other new entity) in Germany. However, he conceded that Ambassador McGhee would have the last say on that.
