Subject: AERODYNAMIC Message

Ref: MUNI 4828

1. On the basis of the information available to us we consider that it was an error in judgment to send the message in Para 1 of reference. This information came to us in [] 0091 and was given us in good faith by JAYHAWK. We question whether it was necessary in the first place to disclose to CASSOWARY 3 the fact that the information had come through the CAVATINA-JAYHAWK W/T channels. Certainly, sending this to the field in a blind broadcast constitutes a decided security risk and, we cannot help but feel, a breach of faith with JAYHAWK.

2. We appreciate your desire for clarification of the situation in the homeland, which we share. We see no reason, however, why essentially the same purposes might not have been served by a message from CASSOWARY 3 stating that the news had appeared in the CAVATINA press, requesting verification and further asking what the source of CAVATINA's information could have been.

3. We should like to have a summary of the factors on which you based your decision to send the message without reference to headquarters. Note that MUNI 4778, Para 3, requests permission to query the homeland if JAYHAWK team was not the source of the information. [] 091 verified that the JAYHAWK team was the source.
