CLASSIFICATION

TO Chief, WE

DATE 9 November 1956

FROM Chief of Station, *C* *3/1*

SUBJECT { GENERAL REDWOOD/AECOB
SPECIFIC TILBURY/1 Microfilm *114831*

REF: OSSA-5295, 5 November 1956

ACTION REQUIRED: Processing of appropriate items.

1. Transmitted under separate cover are three rolls of developed 35 mm film, totaling 77 negatives. The document photographs were made by TILBURY/1 during the early part of November *C* *3* in Stockholm with a Leica camera loaned by the Station on a Boo-Woo copying device purchased by *C* *3*. Although most of the negatives are over-exposed, it is thought by the Station that with careful processing satisfactory prints of them can be made. Unfortunately, TILBURY/1 had no exposure meter or proper artificial lighting. The ten negatives of TILBURY/1 on Roll 2 were taken by *C* *3*

2. It is requested that the station be furnished with a print from the best negative of TILBURY/1.
