7. We have considerable control over Camise. She is working under an assumed name, she obtained her present position only through our influence, and knowledge of her wartime activities gives us a hold on her, too. Actually, however, we are fully satisfied that Camise works for us primarily because of ideological considerations. Camise is emotionally a very unstable person and the possibility always exists that she might come under the influence of a man who would be able to undo whatever loyalty she has to us at present. The hold of false identity and wartime record will decrease as German national feeling increases and this control factor can be considered nil probably within a year.
8. None necessary.
9. This project has to be coordinated with Berlin's Camlet operation.
10. Camise has been in contact with this agency's representatives (prior to 1946 with those of OSS and SSU) since 1945. Exact date not known to FOB. Project will continue indefinitely.
