TO : Chief, EE
Attention: ⊏ ⊐
FROM : Chief of Station, Vienna

DATE: 16 October 1952

SUBJECT: GENERAL— Operational/GROOVY

SPECIFIC— GROSSBAHN - Operational Instructions

1. The attachments, as listed below, are to complete your records on formalized operational reporting instructions passed to GROSSBAHN. The PRQ Part I form, which is not listed here, and which was passed to him during POB's handling of the case, duplicates the DYCLEMATIS form.

a. Project Form: Similar to the DYCLEMATIS form, but with some minor variations introduced by ⊏ ⊐.

b. PRQ Part II: Worked out between GROSSBAHN and ⊏ ⊐ with somewhat more detail than the DYCLEMATIS PRQ Part II form, and in the German language.

c. Non-OB P/ Report Instructions: Memorandum of 19 August 1952 from ⊏ ⊐ to GROSSBAHN containing instructions designed to simplify the processing of non-OB reports at Salzburg Base.

d. Contact-Report Outline: Identical with the contact reporting outline in general staff use in the Austrian Station.

e. Berichtsschema fur Zusammenkunfte: GROSSBAHN's version in the German language of the Contact Report Outline.

2. So far, out of these various instructions, GROSSBAHN has passed only the Berichtsschema on to AA-1. He will from time to time pass on other of these instructions to AA-1 and to other of his reliable principal agents as they become needed. GROSSBAHN himself has now begun using the contact reporting outline as a matter of routine, and AA-1 has promised to do the same.
