C. ACCOMPLISHMENTS:

3. CATOMIC/36 made contact with PDDILL by walking into the Soviet Embassy at our behest with a request for professional assistance. He then drew PDDILL outside of the Embassy and has worked hard at developing a more personal relationship with this interesting S&T officer. CATOMIC/36 has also continued to provide us with useful insights regarding the FR Division target ZUCELL.
4. CATOMIC/6 has renewed her previously close relationship with VSDESK who is again of operational interest since his son committed suicide.
5. Although Soviet access agents do not usually provide positive intelligence reporting, CATOMIC agents provided two reports which were disseminated and evaluated as information of minor importance.
